

Resolution of the President of the Republic of Uzbekistan No. PQ-345
dated 30.09.2024
Effective date
05.10.2024

PRESIDENT OF THE REPUBLIC OF UZBEKISTAN
DECISION

**ON MEASURES TO FURTHER IMPROVE THE NATIONAL
QUALIFICATION SYSTEM OF THE REPUBLIC OF UZBEKISTAN**

In order to develop the national qualifications system, ensure the integration of the labor market and education, legally and institutionally regulate qualification requirements, and expand opportunities for all to receive education and continue their work throughout their lives:

1. The following shall be determined as the main directions of reforming the National Qualifications System:

Improving the regulatory, legal, institutional and methodological foundations of the national qualification system;

Develop and develop a National Classifier of Occupations, Professions and Positions based on international standards;

develop, implement and develop qualification frameworks, professional standards and qualification requirements based on employer requirements;

regulate labor relations based on new generation professional standards, improve higher and professional education programs, and bring the personnel training system to a qualitatively new level;

ensuring international recognition of qualifications and integration of national qualification levels with qualification levels of advanced foreign countries;

introducing a system of recognition of non-formal and informal acquired skills and qualifications ("Recognition of Prior Learning");

development and implementation of tools and methodologies for skills anticipation, skills needs analysis, and skills gap analysis;

Develop strategic plans to fully establish a national qualifications system and expand private sector participation;

Monitoring the development of the national qualifications system, conducting public opinion surveys, and effectively establishing information exchange.

2. The following:

[According to Annex 1](#) of the National Qualifications Framework of the Republic of Uzbekistan ;

The composition of the Republican Council for the Development of Professional Qualifications (hereinafter referred to as the Republican Council) is in accordance with [Appendix 2](#) ;

The main tasks of the Republican Council for the Development of Professional Qualifications are as set out in [Appendix 3](#) ;

The list of ministries and departments responsible for organizing the activities of sectoral councils for the development of professional qualifications (hereinafter referred to as sectoral councils) is in accordance with [Appendix 4](#) ;

The main tasks of sectoral councils for the development of professional skills are in accordance with [Appendix 5](#) ;

The schedule for the development of professional standards in 2025-2026 is in accordance with [Appendix 6](#) ;

To approve the "roadmap" for the radical modernization of the National Qualification System in the Republic of Uzbekistan and the introduction of advanced foreign experience in this area in accordance with [Appendix 7](#) .

3. The Ministry of Poverty Reduction and Employment and the Project Office "Center for Education Projects" (hereinafter referred to as the Project Office):

Establishing the National Skills Development Institute (hereinafter referred to as the Institute) under the Project Office by reducing 40 staff members of the Institute for Labor Market Research under the Ministry of Poverty Reduction and Employment;

To approve the proposals to transfer to the Institute a portion of the material and technical base, buildings and structures, and vehicles of the Labor Market Research Institute proportional to the staffing levels being reduced.

4. It is determined that:

The Institute is a state institution with the status of a legal entity;

The Institute's activities will be financed from targeted allocations from the Employment Support Fund in 2024, and from 2025, from funds provided for in the parameters of the State Budget by reducing budget allocations to the Employment Support Fund in the amount appropriated;

The buildings and structures located at 5/1, Student Campus, Almazar district, Tashkent city, together with the corresponding territory, will be transferred to the Institute on the basis of operational management rights.

5. The following:

The procedure for organizing the activities of the National Qualifications System Development Institute is in accordance with [Appendix 8](#) ;

The main target indicators of the activities of the National Qualification System Development Institute for 2025-2026 shall be approved in accordance with [Appendix 9](#) .

6. The National Agency for Quality Assurance in Education (B. Yuldashev), together with interested ministries and departments:

a) to establish advanced training courses on the development of the National Qualification System at the Institute by February 1, 2025;

b) Until September 1, 2025:

prepare analytical data and proposals on skills needs to ensure labor market and education integration;

develop methodological guides for developing result-oriented educational programs based on professional standards;

develop basic assessment criteria to provide methodological support for skills assessment centers;

c) ensure the development and implementation of a single digital platform of the National Qualifications System by November 1, 2025, including the following capabilities:

Free access to and use of sector councils, national and sectoral qualification frameworks, the National Classifier of Occupations, approved professional standards, a register of examined and implemented educational programs, information on qualification assessment centers, regulatory legal documents and methodological guides on the development of the National Qualification System;

development, discussion, and agreement with stakeholders on draft professional standards;

applicants to submit applications for qualification assessment and recognition, obtain information about exam results, and appeal decisions of qualification assessment centers;

free access to information on issued or revoked documents on the assessment and recognition of professional qualifications;

g) Ensure the development and implementation of professional standards covering 1,800 professions based on advanced foreign experience by December 1, 2026.

7. It is determined that:

The working bodies of sector councils may be human resources development and management departments, large sectoral enterprises, and industry-related research and educational organizations;

The working body has the right to organize expert working groups, taking into account the specifics of the professional standards and other documents being developed, in coordination with the sectoral councils;

Ministries and departments responsible for organizing the activities of sectoral councils may pay remuneration from their own funds to employees and experts involved in the work of expert working groups.

8. Ministries and departments responsible for organizing the activities of sector councils shall, within two weeks, introduce a separate position of chief specialist for the development of professional qualifications (hereinafter referred to as the responsible specialist) within the structure of their central office within the framework of general staff units in accordance with [Appendix 4](#) to this resolution .

The responsible specialist shall be assigned the following tasks:

Acting as secretary of the sector council, summarizing materials and proposals on the formation and implementation of its work plan;

ensuring the submission of materials and documents for examination on issues within the competence of the sector council;

Establish small working groups to develop industry qualification frameworks and professional standards in collaboration with industry council members;

interact with experts, interested educational organizations, and scientific institutions;

coordinating the activities of responsible employees and experts assigned to sector councils.

It is determined that the reduction of staff units allocated to responsible specialists will be carried out in consultation with the Council of the Republic.

9. Council of the Republic (A. Aripov):

approval of the composition of sectoral councils, at least 50 percent of which will consist of representatives of employers, within a month;

the incorporation of large employers, business associations, and basic educational institutions into sectoral councils within two months, depending on their sectoral relevance;

By the end of 2024, industry qualification frameworks based on advanced foreign experience will be developed and put into practice;

Ensure the development of professional standards for the areas (types) of professional activity with the highest demand across all sectors by the end of 2025.

10. The Technical Regulation Agency of Uzbekistan (A. Jumanazarov) together with the Ministry of Poverty Reduction and Employment (B. Zakhidov), the Ministry of Higher Education, Science and Innovation (K. Sharipov), the Project Office (A. Khudaykulov), and other interested ministries and departments:

The Classifier of Main Positions of Employees and Occupations of Workers will be revised and approved in accordance with the established procedure by December 1, 2024, based on international experience and standards;

Ensure that by August 1, 2025, a National Classification of Occupations based on the International Standard Classification of Occupations (ISCO-2008) is developed and approved in accordance with the established procedure.

It is noted that these classifiers will be updated by the Ministry of Poverty Reduction and Employment based on proposals from sectoral councils and labor market analysis.

11. The Ministry of Higher Education, Science and Innovation (K. Sharipov), the Ministry of Economy and Finance (O. Fozilkarimov) should take measures to allocate grants within the framework of state scientific programs to develop a National Classifier of Occupations and create a single digital platform of the National Qualification System within two months.

12. The National Television and Radio Company of Uzbekistan (A. Djurabayev), together with the National News Agency of Uzbekistan (A. Kochimov), shall take measures to systematically prepare and publish information and analytical reviews on the implementation of this resolution through the media, indicating specific indicators and results.

13. [The Resolution](#) of the President of the Republic of Uzbekistan No. PQ-4939 dated December 31, 2020 "On measures to radically improve the skills assessment system and provide the labor market with qualified personnel" shall be deemed to have lost its force.

14. The Ministry of Poverty Reduction and Employment, together with interested ministries and departments, shall submit proposals to the Cabinet of Ministers within three months on amendments and additions to legislative documents arising from this resolution.

15. The Director of the National Agency for Quality Assurance in Education B.G. Yuldashev, the Minister of Higher Education, Science and Innovation KA Sharipov, and the Minister of Poverty Reduction and Employment BE Zakhidov shall be appointed as responsible and personally liable for the effective organization of the implementation of this resolution.

The Prime Minister of the Republic of Uzbekistan, AN Aripov, shall be responsible for monitoring the implementation of the decision and coordinating the activities of the organizations responsible for its implementation.

President of the Republic of Uzbekistan Sh. MIRZIYOYEV

Tashkent city,
September 30, 2024,
PQ-345-number

[ANNEX 1 to the Resolution](#) of the President of the Republic of Uzbekistan
No. PQ-345 dated September 30, 2024

National Qualifications Framework of the Republic of Uzbekistan

Chapter 1. General provisions

1. The National Qualifications Framework of the Republic of Uzbekistan (hereinafter referred to as the National Qualifications Framework) is a tool linking the labor market and the education system, defining a generalized description of qualification levels and the main ways to achieve them in the territory of the Republic of Uzbekistan.

2. The National Qualifications Framework is a component of the national qualifications system of the Republic of Uzbekistan and is the basis for developing a national assessment system for learning outcomes.

3. The National Qualifications Framework serves as the basis for the development of sectoral qualification frameworks, occupational standards and educational programs, and mechanisms for the achievement and recognition of qualifications for all levels of education at the national and international levels.

Chapter 2. Content of the National Qualifications Framework

4. The introduction of a national qualifications framework will allow for the following:

- development of professional standards and educational programs on a unified methodological basis;

- describe learning outcomes, qualifications, and competency requirements from a single perspective;

- determining qualification requirements in the process of recruitment, vertical and horizontal movement of employees within and between organizations;

- develop assessment tools and procedures for determining the qualifications of graduates at all levels of education;

Formulating a general strategy for the development of the labor market and education system, including planning various educational trajectories leading to obtaining specific qualifications, improving qualifications, and career growth.

5. The National Qualifications Framework includes eight qualification levels in accordance with the European Qualifications Framework and [the Law](#) of the Republic of Uzbekistan "On Education" , as well as the main paths to achieving the corresponding qualification levels.

6. The National Qualifications Framework is formulated in the form of a table, which defines the knowledge, skills and abilities, responsibility and independence required to perform professional activities at each qualification level, as well as the paths to achieving the appropriate qualification level, the details of which are reflected in sectoral qualification frameworks and professional standards.

7. The National Qualifications Framework is applied taking into account the following principles:

- comprehensiveness** - covering all types of education, including non-formal and informal learning processes, and reflecting modern types of qualifications;

- transparency and comparability** - serving as a guide for international comparison;

- from simple to complex** - reflecting the increase and complexity of learning outcomes when moving from a lower level to a higher level;

- Flexibility** - allowing for the development of new types of skills emerging in the labor market and their easy integration into the skills framework.

8. The indicators in the National Qualifications Framework are described as follows:

- a) The indicator "knowledge" determines the requirements for knowledge used in professional activities and is expressed as:

 - the volume and complexity of the information being used;

 - innovativeness of the knowledge being applied;

 - the ratio of theoretical and practical knowledge;

b) The indicator "skills" determines the requirements for skills and is expressed as:

diversity (variability) of ways to solve professional tasks;
the need to choose or develop ways to solve professional tasks;

c) The indicator "responsibility and independence" determines the general competence of the employee and is expressed as:

activities under supervision;
independent executive discipline;
leadership activities;

Scope of activity - the breadth of authority and responsibility, liability, and the consequences of possible errors in professional activities;

g) The indicator "pathways to qualification" is expressed as providing flexibility and diversity of paths to achieve the relevant qualification level, in relation to vocational training, education and practical work experience.

9. Based on the National Qualifications Framework, sector councils for the development of professional qualifications, in collaboration with employer associations, will develop sectoral qualification frameworks and professional standards.

Chapter 3. Structure of the National Qualifications Framework

Qualification level	Knowledge	Skill (skill)	Responsibility and independence	Ways to achieve a qualification level
1.	Elementary and basic general knowledge in a field of study or professional activity	Skills required to perform standard and simple tasks according to established rules	Responsibility for one's actions and work results; Working under the direct supervision and observation of another	primary education + short-term on-the-job training (instruction) or short-term courses or practical experience
2.	General practical knowledge in the field of study or professional activity	The practical and cognitive skills needed to perform standard tasks using simple rules and	Responsibility for one's actions and work results; Perform standard and simple tasks under supervision	1) general secondary education 2) basic secondary education + short-term on-the-job

Note: The Republican Council for the Development of Professional Qualifications is authorized to make amendments and additions to this "Roadmap".

ANNEX 8 to the Resolution of the President of the Republic of Uzbekistan No. PQ-345 dated September 30, 2024

Procedure for organizing the activities of the National Qualifications System Development Institute

1. The following are determined as the main areas of activity of the Institute for the Development of the National Qualification System (hereinafter referred to as the Institute):

To perform the functions of a working body of the Republican Council for the Development of Professional Qualifications (hereinafter referred to as the Republican Council);

Organizational, methodological, expert and analytical support for the activities of the Republican Council, sectoral councils and qualification assessment centers;

exercise general control over the development of sectoral qualification frameworks, professional standards and assessment tools, coordinate activities for their examination and implementation;

provide conclusions on the compliance of educational programs with relevant professional standards or qualification requirements;

Accreditation of qualification assessment centers, monitoring their activities, maintaining their register, and providing them with methodological assistance if necessary;

Implementation of a single digital platform of the National Qualifications System, technical support, integration with other information systems, as well as input, analysis and processing of data on issues of the National Qualifications System;

Develop proposals and recommendations for the development and improvement of the national qualifications system and provide methodological services in this regard;

professional development of members of sector councils and employees of skills assessment centers;

to form and maintain a national register of persons with approved qualifications and a register of professional standards;

coordinating the activities of specialists responsible for developing professional skills in ministries and departments and providing them with practical assistance.

2. It is determined that:

The total limited number of administrative and scientific staff of the Institute, financed from the State budget, is set at 40 and will be funded from the staff units of the Institute for Labor Market Research under the Ministry of Poverty Reduction and Employment;

The director of the Institute and his deputy are appointed and dismissed by the director of the National Agency for Education Quality Assurance (hereinafter referred to as the Agency);

The Agency Director is authorized, if necessary, to make changes to the structure of the Institute within the approved total limited number of employees of the Institute and the payroll fund;

The conditions of remuneration and material incentives established for the relevant positions of the scientific research institutions of the Academy of Sciences of the Republic of Uzbekistan shall apply to the employees of the Institute;

In order to fulfill its tasks, the Institute is authorized to organize temporary scientific groups, involving professors and teachers from relevant

higher education and scientific organizations, young scientists and talented students, as well as foreign specialists;

The Institute provides paid services for the examination of industry qualification frameworks, professional standards and assessment tools, as well as accreditation of qualification assessment centers, on a contractual basis, upon orders from business entities. The amounts of payment for these services are determined by the Institute in accordance with the procedure established by the Agency.

3. The following shall be designated as sources of financing the activities of the Institute:

Targeted allocations from the Employment Assistance Fund in 2024;

Starting from 2025 (by reducing budget allocations to the Employment Support Fund by the appropriate amount), the annual funds provided for in the State Budget parameters;

Funds allocated from the Fund for the Development of Higher Education Institutions under the Ministry of Higher Education, Science and Innovation;

grants allocated by the Ministry of Higher Education, Science and Innovation for the implementation of state programs related to scientific activities;

revenues from economic activities and services provided under a contract;

grants from international financial institutions and other foreign organizations;

other sources not prohibited by legislative acts.

4. To the Institute:

Development of draft regulatory legal acts in the field of developing the national qualification system;

Participation in the implementation of promising projects in the field of developing the national qualification system;

Determining the level of qualifications for education not provided for in the national qualifications framework of the Republic of Uzbekistan;

To be granted the right to submit proposals to the Council of the Republic to consider the issue of liability of officials of ministries and departments who fail to fulfill their duties as participants in the qualification system.

5. The Director of the Institute, in agreement with the Agency, is allowed to carry out the following at the expense of the Institute's extrabudgetary funds:

Attracting foreign specialists, including compatriots abroad, to work at the institute on a contractual basis and paying for their work;

Financial incentives for the Institute's employees in accordance with the procedure established by the Agency.

6. Funds released due to the lack of staffing at the Institute, as well as funds saved from the employee salary fund, will be used to provide financial incentives to the Institute's employees.

The procedure for material incentives and rewards for the Institute's employees, as well as the use of extra-budgetary funds of the Institute, is approved by the Agency.

7. The Institute may place its temporarily idle extra-budgetary funds, including funds in foreign currency, in deposits of commercial banks of the Republic of Uzbekistan and dispose of the income received.
