

ANNEX 1 [to the Resolution](#) of the Cabinet of Ministers No. 578 dated September 13, 2025

**ON THE PROCEDURE FOR ADMISSION TO BACHELOR'S DEGREES IN
HIGHER EDUCATION INSTITUTIONS
REGULATION**

Chapter 1. General provisions

1. This Regulation establishes the procedure for admitting students to bachelor's degrees in state higher education institutions operating in the Republic of Uzbekistan (hereinafter referred to as higher education institutions) in accordance with [the Law](#) of the Republic of Uzbekistan "On Education" .

This Regulation does not apply to higher education institutions whose admission processes are regulated in accordance with separate legislative acts.

2. Admission to bachelor's degrees at higher education institutions is based on the following parameters:

Parameters of the state order based on a state grant, including an educational grant, for undergraduate education areas approved by relevant documents of the President of the Republic of Uzbekistan;

General admission parameters for undergraduate education in higher education institutions, forms of education and languages, approved by the State Commission for Admission to Educational Organizations of the Republic of Uzbekistan (hereinafter referred to as the State Commission).

3. Applicants to existing forms of education of higher education institutions are admitted to study according to the rating system of points accumulated according to the results of entrance exams (tests, professional (creative) exams) approved by the State Commission.

The entrance exams will consist of the following two sections:

the first section - tests in three mandatory subjects for all undergraduate programs - native language, mathematics, and history of Uzbekistan;

The second part is test tests in two subjects corresponding to the undergraduate field of study chosen by the applicant, or professional (creative) exams corresponding to the undergraduate field of study, which are held in parallel with the test tests.

Admission of applicants to study within the admission parameters and outside the admission parameters on the basis of a state grant and a payment contract is carried out by the State Commission in accordance with the procedure established by this Regulation.

Admission to higher education institutions is carried out on the basis of equality, uniform admission rules and selection, and applicants with the highest scores in the entrance exams are admitted first under educational grants. The remaining applicants are admitted within the parameters of admission on a fee-based contract basis, determined based on the rating of their scores.

Choice:

for state grants - based on the share of the state grant quota in relation to the overall admission parameter of the higher education institution for each undergraduate program;

for payment-contract - separately for each higher education institution, depending on the areas of study, languages of instruction, and forms of education;

for targeted admission - held separately for each educational field and region (if targeted admission parameters are approved across regions).

In this case, in the process of distributing the share of the state grant in undergraduate education programs relative to the general admission parameter of the higher education institution, numbers with a remainder of less than 0.5 are rounded to 0, and numbers with a remainder of 0.5 and higher are rounded to 1.

4. Regardless of the language in which the applicant studied at the general educational institution, he/she will take the tests and professional (creative) exam in the language of study at the higher educational institution.

5. Along with tests, professional (creative) exams are held in some undergraduate programs. The list of programs in which professional (creative) exams are held is approved by the Ministry of Higher Education, Science and Innovations based on proposals from ministries and departments that are higher education institutions.

6. Only applicants who have a secondary specialized, vocational, professional education in a relevant or similar bachelor's degree field and at least three years of practical work experience in the field, profession, or position corresponding to the bachelor's degree field (pedagogical experience for pedagogical fields), as well as a letter of recommendation from the relevant industry organizations, and who have successfully passed the entrance exams (tests, professional (creative) exam, written exam) are admitted to study in a special part-time form of education.

Chapter 2. Organization of the activities of admissions committees and preparation for admissions processes

7. An admissions committee (hereinafter referred to as the admissions committee) consisting of at least 9 qualified specialists shall be formed to organize admissions processes at a higher education institution.

The composition of the admissions committee is approved by the Council of the higher education institution.

In this case, the rector (director) of the higher education institution is the chairman of the admissions committee by position.

The duties of the admissions committee and its members are determined by the chairman of the committee.

8. The Council of Ministers of the Republic of Karakalpakstan, regional and Tashkent city khokimiyats, and rectors (directors) of higher educational institutions shall ensure the creation of necessary conditions for conducting entrance exams (tests, professional (creative) exams) on-site.

Chapter 3. Registration of applicants

9. The following may register as applicants for undergraduate programs of higher education institutions:

graduated from a general secondary education institution (eleven-year education);

graduated from a secondary specialized education institution (nine-year basic secondary and two-year secondary specialized education);

graduated from a primary vocational education institution (nine-year basic secondary and two-year primary vocational education);

Persons who have graduated from a secondary specialized, vocational education institution (nine-year general secondary and three-year secondary specialized, vocational education) before the entry into force of the Law of the Republic of Uzbekistan "On Education" (September 24, 2020) and have an appropriate document confirming this.

10. Online registration of applicants and obtaining final results during the admission process to higher education institutions is carried out in two stages through the Unified Interactive State Services Portal of the Republic of Uzbekistan and the official website of the Agency for Knowledge and Qualifications Assessment under the Ministry of Higher Education, Science and Innovation of the Republic of Uzbekistan (hereinafter referred to as the Agency).

In this case, applicants:

in the first stage, the set of subjects in which the test will be taken from June 5 to June 25 (including June 25) annually, the language of instruction, the region of the test, and, if the entrance exams include a professional (creative) exam, the higher education institution that will administer this exam;

In the second stage, within 15 days after the test is fully completed, the higher education organization selects the undergraduate program, form of education, and selection priority.

Applicants are given the right to choose up to five undergraduate education areas and forms of education with the same set of subjects and sequence of tests. In this case, if the entrance exams include a professional (creative) exam, applicants will be able to choose up to five higher education institutions for a specific undergraduate education area.

Applicants will be given the opportunity to participate in the competition in the order of their chosen undergraduate study programs based on the selection priority ("education grant" or "field of study") they specified during the registration process.

11. Applicants who are blind are registered in one stage - from June 5 to June 25 (including June 25) of each year.

During this period, applicants who are blind choose a higher education institution, undergraduate program, form of education, and language of instruction.

12. Admission to educational programs in which a foreign language is the first subject in a complex of disciplines is carried out on the basis of a national or international certificate of knowledge of a foreign language at least at level B2.

13. When registering applicants, information about the educational institution from which graduates of general secondary education institutions graduated is obtained in real time from the Ministry of Preschool and School Education, the Ministry of Higher Education, Science and Innovation, and ministries and departments that have general secondary and vocational education institutions in their system through the Interdepartmental Integration Platform of the "Electronic Government" system.

Applicants' identity documents (passport or ID card) and permanent residence information are obtained from the Ministry of Internal Affairs in real time.

14. Changes and additions to information are not allowed after the deadlines for registering applicants.

15. Applicants will be charged a fee of 50% of the basic calculation amount for participating in the tests.

In this case, applicants who graduated from educational institutions in the year in which the tests are organized, persons with disabilities (persons with disabilities of groups I and II and children with disabilities), persons fully supported by the state, persons registered in the information module "Register of Poor Families" and their children, and young people included in the "Youth Book" are not charged a fee for participating in the test.

Applicants who have not made the payment will not be issued a permit to participate in tests and professional (creative) exams.

16. Applicants recommended for admission shall submit the following documents to the admissions committee of the higher education institution:

the original of one of the documents specified [in paragraph 9](#) of these Regulations (along with its annex);

Applicants who have privileges in accordance with the procedure established by legislative acts - the original document confirming the right to privileges.

Chapter 4. Conducting professional (creative) exams

17. Professional (creative) exams under the unified multi-point assessment system are held in accordance with the list of educational areas and the set of disciplines corresponding to them, approved by the Ministry of Higher Education, Science and Innovation.

18. The main purpose of professional (creative) exams is to determine the applicants' ability to study and subsequently work in the chosen undergraduate field of study, and to assess their knowledge and professional skills (creative and physical abilities) in the chosen subjects.

19. The professional (creative) exam is held separately for each undergraduate program and language of instruction.

Professional (creative) exams can be conducted in practical, written, or oral forms, depending on the nature of the subjects.

The curriculum for the subjects in which the professional (creative) exam is held, the content of the exam questions and assignments must be coordinated with the programs of general secondary (based on grade 11) and secondary specialized educational organizations.

20. Professional (creative) exams are held by higher education institutions every year from the end of the registration of applicants until July 20 (also on July 20).

In this case, the Ministry of Higher Education, Science and Innovation, ministries and departments with higher education institutions in their system, and the Agency will coordinate the timing of applicants' tests and professional (creative) exams so that they do not fall on the same day.

21. Heads of ministries and departments with higher education institutions in their system, as well as rectors (directors) of higher education institutions, shall ensure the creation of necessary conditions for conducting professional (creative) exams on site, including providing rooms where exams are held with visual aids, teaching aids, and materials.

22. A week before the start of exams in a higher education institution, by order of the rector (director), a professional (creative) examination commission consisting of at least 3 experienced and qualified professors and teachers and specialists is formed to organize and conduct exams in relevant subjects.

Professional (creative) exams are held according to the schedule approved by the chairman of the admissions committee.

The time allocated for professional (creative) exams is determined by the decision of the admissions committee.

The written (practical) examination work of applicants is checked and evaluated through encryption.

23. The members of the admissions committee and the professional (creative) examination committee are responsible for ensuring that professional (creative)

examinations are conducted in accordance with the requirements of these Regulations and that the examination processes are videotaped.

24. Video recordings of professional (creative) examination work and processes are stored in special rooms of admissions committees for three years and are destroyed in accordance with the established procedure after this period.

25. The admissions committee publishes the exam program, assessment criteria, advice, and exam schedule on the official website of the higher education organization at least one week before the start of professional (creative) exams.

In this case, the programs and evaluation criteria for unified professional (creative) exams in undergraduate education areas are approved by the relevant ministries and departments in coordination with the Ministry of Higher Education, Science and Innovation.

26. Professional (creative) exams are evaluated according to a single multi-point system, ranging from 0 to 100 percent of the maximum score, depending on the position of the subject in the test sets.

If a professional (creative) exam is held in several independent subjects within the framework of a bachelor's degree program, the total number of points assigned for assessment is divided into the subjects in a differential order, based on the characteristics of each subject.

27. If an applicant attempts to bring or brings in a dictionary, table, book, mobile phone, computer, telecommunications equipment, and crib sheets when entering the building where the professional (creative) exams are held, as well as passes or assists another applicant with exam tasks during the professional (creative) exams, refuses to hand over exam materials after the time allotted for the professional (creative) exams has expired, or removes exam materials from the group, he/she is considered to have violated the procedure for conducting the professional (creative) exam and a report will be drawn up by the professional (creative) exam commission and the applicant will be excluded from the exam.

28. The results of the examination for each subject in the complex of subjects in accordance with the relevant undergraduate education areas are published on the official website of the higher education organization within three days after the examination, depending on the nature of the professional (creative) examination.

29. Applicants who do not appear for professional (creative) exams (exam stage or type) according to the schedule will not be retaken, will not be allowed to take the next stage of entrance exams, and will not be admitted to study.

30. By order of the rector (director) of the higher education institution, an appeals commission consisting of at least 3 members, including leading specialists in the field and experienced employees and professors of the higher education institution, is established.

The appeal commission may not include members of the professional (creative) examination commission.

The member of the professional (creative) examination commission who took the exam has the right to participate in the appeal process and express his/her opinion.

Appeals are accepted within 24 hours of the announcement of the exam results and are reviewed by the appeals committee within three days.

The applicant has the right to participate in the consideration of the appeal. The applicant will be notified of the time and place of consideration of the appeal at least one day in advance.

31. The results of professional (creative) exams are entered into separate exam records by subject.

Each of these examination records is signed and sealed by the chairman of the professional (creative) examination committee and the executive secretary of the admissions committee.

32. The record of the final results of professional (creative) exams is signed by the chairman and executive secretary of the admissions committee.

33. The results of the professional (creative) exam are entered into the Agency's special program by the admissions committee, and by July 25 of each year, the results of the professional (creative) exams are checked based on the records and approved by the responsible secretary of the admissions committee.

Chapter 5. Preparing for and taking tests

34. The list of educational areas, the set of subjects corresponding to them, the number of test tasks, assessment criteria, and a sample answer sheet are approved by the Ministry of Higher Education, Science and Innovation and published on its official website at least six months before the start of the tests.

The subject complex is formed in the subjects of the native language and literature, mathematics, physics, chemistry, biology, history, geography, foreign language, and law.

If the undergraduate program chosen during registration includes a foreign language, the applicant may take the test in one of the following languages: English, German, French, Spanish, Italian, Turkish, Chinese, Korean, Japanese, Arabic, Persian, Dari, Urdu, Uyghur, and Hindi. One of these foreign languages is selected by the applicant at the first stage of registration.

35. Test tasks are based on the general secondary education curriculum.

Test tasks are formatted in the Latin alphabet for applicants who chose Uzbek or Karakalpak as the test language during registration.

36. Tests are conducted by the Agency for existing forms of education every year in July-August, as a rule, in two shifts per day.

The deadlines for conducting tests and implementing the second stage of registration (the applicant's choice of a higher education institution, undergraduate program, form of education, and priority of selection) are determined by the State Commission and announced on the official website of the Ministry of Higher Education, Science and Innovation and the Agency.

37. Tests are conducted in accordance with the Regulation on the procedure for conducting entrance tests for admission to bachelor's degrees in higher educational institutions of the Republic of Uzbekistan, approved by Resolution No. 261 of the Cabinet of Ministers of the Republic of Uzbekistan dated April 3, 2018.

38. Information about the applicant's test scores will be published on the Agency's official website the day after the test, and within one week after the second stage of registration (the applicant's choice of a higher education institution, undergraduate program, form of education, and priority of selection) is fully completed, confirmed in accordance with the established procedure as to whether or not the applicant is recommended for admission.

Chapter 6. Application of established preferences for admission to undergraduate programs

39. For graduates of orphanages, small-scale orphanages, children's towns, SOS children's neighborhoods and family children's homes, as well as orphans who have been placed under guardianship, foster care or foster care, and children deprived of parental or single mother care due to deprivation of parental rights, missing or recognized as incompetent, as well as children who have been found (abandoned) and whose parents are unknown, and children left without a breadwinner as a result of the death of an unmarried mother (single mother) (except for those who have reached the age of twenty-five), admission parameters based on a state grant of up to one percent of the total number of applicants to higher educational institutions are allocated.

These admission parameters are distributed by the State Commission across higher education institutions and forms of education.

40. Winners of the republican competitions "Educator" and "Nurse" held by the Ministry of Preschool and School Education and the Ministry of Health, respectively, are admitted to the corresponding bachelor's degree programs by

decision of the State Commission without competitive entrance exams (tests, professional (creative) exam, written exam) on the basis of an additional state grant.

41. For children from families included in the "Register of Poor Families", additional state grant admission parameters are allocated in the amount of up to 10 percent compared to the state grant admission parameters allocated for undergraduate education.

The distribution of admission rates based on the state grant allocated to children from families included in the "Register of Poor Families" by undergraduate degree program is approved by the State Commission.

In this case, children from families included in the "Register of Poor Families" who have scored 80 percent or more of the points required for admission to a specific undergraduate education program are recommended for admission to a specific undergraduate education program within the framework of admission parameters based on the allocated state grant, strictly adhering to the sequence of points.

This privilege:

Applies to the first undergraduate field of study chosen by the applicant upon registration;

It does not apply to applicants who scored below the minimum passing score set by the State Commission for an education grant when entering a bachelor's degree program for a specific academic year.

42. Applicants with A level certificates of grade "B" and above and International Baccalaureate certificates of 32 or above are admitted to higher education institutions for additional studies in the bachelor's degree programs available in the subject entrance exams for which the certificate was issued, based on the basic fee-contract amount.

In this case, the applicant must send the International Baccalaureate certificates to the Agency electronically (via the IB Secure Website).

Applicants with a certificate of 1200 points or higher, which is 75% of the maximum score possible on the Scholastic Aptitude Test (SAT) international exam conducted by the College Board, are admitted to higher education institutions in the bachelor's degree programs for which the certificate was issued, on the basis of an additional state grant.

In this case, the applicant must send the Scholastic Aptitude Test — SAT certificates to the Agency electronically (via DI code).

43. Applicants who have the privilege of being recommended for study on the basis of an additional state grant without an exam, regardless of the form of education, in accordance with the decision of the State Commission, are admitted to study on the basis of an additional state grant in the first bachelor's degree program of their choice, within the scope of the privilege upon registration.

In this case, winners of international sports competitions are admitted to study without exams in undergraduate programs in the field of physical education and sports, with strict adherence to the correspondence of sports types in the field, based on an additional state grant.

44. When applying for benefits, the minimum passing score set by the State Commission is strictly adhered to.

45. When calculating the validity period of national or international certificates in general education subjects and a foreign language, the date of registration of the applicant is taken into account. In this case:

Applicants with a national certificate at levels B+, B, C+, C in general education subjects may confirm or deny the use of this certificate for a specialty subject during the first stage of registration;

An applicant who confirms the use of the certificate will not take a test in this subject and will be given a score in this subject in accordance with the percentage in the certificate;

An applicant who refuses to use the certificate will participate in the test in the general manner;

If the certificate is obtained in one of the compulsory subjects, regardless of whether the applicant confirms or denies the use of the certificate for the specialty subject, he will be awarded the maximum score in the relevant compulsory subject and the applicant will not take a test in this compulsory subject;

Applicants with national or international certificates in general education subjects (except for Uzbek language and literature, Russian language and literature, and Karakalpak language and literature) will be given preferential treatment in accordance with the established procedure, regardless of the language in which they take the exam.

46. If applicants have two or more benefits in the same category, the order of application of the benefits is determined by the Agency.

47. Applicants with special privileges for participation in the competition within the framework of separate admission parameters (except for persons with disabilities and graduates of orphanages, small-sized orphanages, children's towns, SOS children's neighborhoods and family children's homes under the age of twenty-five, as well as orphans placed under guardianship, foster care or foster care, deprived of parental rights, missing or recognized as incompetent, as well as children who have been found (abandoned) and whose parents are unknown, and children left without a breadwinner as a result of the death of an unmarried mother (single mother)) participate in the competition within the framework of separate admission parameters allocated for them in the first bachelor's degree program of their choice. In this case:

When conducting a competition for the Law Enforcement Academy of the Republic of Uzbekistan, the privileges provided for in legislative acts do not apply;

Applicants who have chosen the Law Enforcement Academy of the Republic of Uzbekistan as their first higher education institution, as an exception, will participate in the competition within the framework of separate admission parameters

allocated for the higher education institution they have chosen as their second (choice) choice (in the case of the Law Enforcement Academy of the Republic of Uzbekistan, the next higher education institution in sequence);

Applicants who participated in the competition within the framework of separate admission parameters and were not recommended for admission will participate in the competition in the general manner in the undergraduate areas of study selected during registration.

48. Applicants recommended for study on the basis of a state grant with a discount are not allowed to use this discount again (in subsequent periods).

Applicants who have been admitted to study on the basis of a state grant or a fee-based contract are not allowed to receive higher education on the basis of a state grant for the second time at this stage of education.

49. Applicants with privileges are admitted to higher education institutions in accordance with the Unified Register of Privileges for Admission to Bachelor's Degree Programs in Higher Education Institutions, which is approved by the State Commission annually by May 1.

50. Information on eligible applicants is entered into the Agency's special information system by the interested ministries and departments by June 1 of each year.

Data on persons with disabilities, including blind persons, is obtained in real time from the relevant information system of the National Agency for Social Protection under the President of the Republic of Uzbekistan.

51. The Agency annually submits information to the State Commission on applicants who have the privilege of being recommended for study on the basis of an additional state grant without an exam, after the completion of the second stage of registration of applicants.

52. The procedure and mechanism for applying the newly introduced benefits will be agreed upon with the Ministry of Higher Education, Science and Innovation and the Agency.

Chapter 7. Admission to study with targeted admission parameters

53. Applicants who have chosen educational programs with separate targeted admission parameters will participate in the selection process for each undergraduate educational program, first within the framework of targeted, and then within the framework of general admission parameters.

In this:

state bodies and organizations, as well as economic entities in whose authorized fund (authorized capital) the state share is 50 percent or more, submit proposals for targeted admission quotas to the State Commission by educational field from May 15 to June 1 each year, based on their needs for personnel;

The State Commission approves target admission parameters by region and educational field, based on the parameters of the existing state order;

Targeted admission parameters are allocated within the parameters of admission to state higher education institutions for full-time undergraduate studies on the basis of a state order, approved by the relevant decree of the President of the Republic of Uzbekistan;

Within the framework of targeted admission parameters, a four-party agreement is concluded between the applicants recommended for admission and the interested district (city) administration, the relevant state body (organization), and the higher education institution;

The responsibility of each personnel customer (relevant state body or organization) is to provide employment to students who have studied within the target admission parameters and monitor their employment in a specific region (organization) after completing their studies.

54. If an applicant is recommended for admission within the framework of targeted admission parameters, he/she will not participate in the selection within the framework of general admission parameters.

55. Admission to educational programs with approved target admission parameters in the framework of the established admission parameters for higher education institutions is carried out at the expense of applicants who permanently reside in a specific region (at the registered place of permanent residence), have registered in the established manner and have successfully passed entrance exams (tests, professional (creative) exam, written exam).

Chapter 8. Specific aspects of admission of blind applicants

56. The following applicants are included in the category of visually impaired:

a) persons who have a document confirming their graduation from a general secondary (eleven-year education), secondary specialized (nine-year basic secondary and two-year secondary specialized education), primary vocational education (nine-year basic secondary and two-year primary vocational education), as well as secondary specialized, vocational education (nine-year general secondary and three-year secondary specialized, vocational education) institution before the entry into force [of the Law](#) of the Republic of Uzbekistan "On Education" (September 24, 2020) and a certificate of group 1 visual disability in the established form;

b) the following persons who have a certificate of disability of the 2nd group in the prescribed form:

have a certificate of completion of secondary education (based on grade 11) provided by special boarding schools for the blind;

have a diploma for the blind issued by specialized primary vocational education organizations (vocational colleges) for people with disabilities;

They studied at a special boarding school for the blind for 9 years and received a diploma from a secondary specialized or vocational or primary vocational education organization.

57. Blind applicants take entrance exams to higher education institutions in the traditional form, using a multi-point or five-point assessment system that corresponds to the set of subjects in the field of study.

58. The form of entrance exams in subjects (written or oral) is determined by the admissions committee.

59. The admissions committee will allocate a specially responsible employee to conduct explanatory work with blind applicants.

60. The chairman of the admissions committee forms subject committees to conduct entrance exams.

61. The programs and assessment criteria for entrance exams in subjects are drawn up in full accordance with the programs of general education subjects of general secondary education and are approved by the admissions committee.

62. The Scientific Commission shall include a representative of the community of the blind or disabled.

63. The admissions committee organizes consultations for blind applicants in the subjects of the entrance exams according to a specially developed schedule.

64. Entrance exams for blind applicants are held annually in July, within the deadlines set and announced by the admissions committees.

65. Rectors (directors) of higher education institutions shall ensure that the necessary conditions are created for conducting entrance exams for blind applicants.

66. The members of the admissions committee and the subject examination committee are responsible for conducting entrance exams for blind applicants in accordance with the requirements of these Regulations and for videotaping the examination processes.

Video recordings of examination processes are stored in special rooms of admissions committees for three years and are destroyed in accordance with the established procedure after this period.

67. By order of the rector (director) of the higher education institution, an appeals commission consisting of no less than 3 members is established to consider appeals during the period of exams for blind applicants in the established manner.

68. Appeals are accepted within 24 hours of the announcement of the exam results and are considered by the appeals committee within three days.

69. Higher education institutions shall submit information on blind applicants and the results of entrance exams to the Ministry of Higher Education, Science and Innovation within three days after the completion of the entrance exams for inclusion in the State Commission.

70. Applicants who have successfully passed the entrance exams (when assessed in a multi-point system - received 55% or more of the maximum score, when assessed in a five-point assessment system - received a score of "3", "4" or "5") are admitted to study without a selection process, on the basis of an additional state grant, by order of the rector (director) of the higher education institution, in accordance with the decision of the State Commission.

Failure by an applicant to submit to the admissions committee the original documents confirming that he or she is a visually impaired person (the original certificate of disability in the prescribed form is indicated) in accordance with [paragraph 56](#) of these Regulations shall be grounds for the higher education institution not to issue an order to admit this applicant to study.

Chapter 9. Admission of applicants to study on a fee-based contract basis, procedure and amount of tuition fees

71. Admission of applicants to higher education institutions on a fee-based contract basis is carried out by the State Commission based on the score rating of entrance exams (tests, professional (creative) exams) based on uniform admission rules within the framework of admission parameters approved in the prescribed manner.

After the State Commission makes a decision to recommend applicants for studentship on a fee-based contract basis, an agreement (contract) is drawn up between the higher education institution and legal entities or individuals in accordance with the established procedure.

Contract forms of the specified sample are issued through the electronic platform "kontrakt.edu.uz" of the Ministry of Higher Education, Science and Innovation from the date of announcement of the recommendation of applicants for studentship by the higher education organization.

For applicants recommended for study on a fee-based contract basis, at least 25% of the established fee amount must be paid no later than September 15 of each year or by the deadline established by the State Commission.

The terms of the contract and the obligations of the parties, as well as the procedure for their implementation, are determined in accordance with legislative acts.

72. Higher education institutions may, based on their existing scientific and pedagogical potential and the material and technical base that allows them to organize a quality educational process for students, as well as the number of selection and accumulated points, admit applicants to study on an additional (hereinafter referred to as additional admission) and differentiated fee-based contract basis, in addition to the generally established admission parameters.

73. Higher education institutions carry out additional admissions in accordance with the admission criteria established by the decision of the State Commission, strictly observing the sequence of scores from among applicants whose scores are not less than the minimum score determined by the State Commission and who have not reached the main admission threshold by 4 points.

In this case, the contract payment amount is determined in the following amounts relative to the actually established base contract payment amount:

For applicants who have not reached 1.05 points - 1.5 times the base payment-contract amount;

For applicants who have not reached 1.06 points to 2.05 points - 2.0 times the base payment-contract amount;

For applicants who have not reached 2.06 points to 3.05 points - 2.5 times the base payment-contract amount;

For applicants who have not reached 3.06 points to 4.05 points - 3.0 times the base payment-contract amount.

After fulfilling at least 50% of the payment-contract terms for the first academic year for these amounts within the deadlines established by the State Commission, the applicant will be admitted to study by order of the rector (director) of the higher education institution.

74. Applicants who have scored at the entrance exams (tests, professional (creative) exams) not lower than the minimum score determined by the State Commission, who have not been accepted within the established admission parameters and on the basis of additional admission, and who have expressed a desire to study, are granted the right to study in the first academic year, subject to payment of a differentiated fee-contract amount determined by the State Commission in relation to the fee-contract amount actually established.

In this case, for applicants who score less than the established admission threshold for admission to higher education institutions within the system of the Ministry of Agriculture, the differentiated fee-contract amount may be set at 50 percent of the fee-contract amount established for a specific undergraduate education program.

An applicant who expresses a desire to study on a differentiated payment-contract basis is admitted to study by order of the rector (director) of the higher education institution after fulfilling at least 50% of the payment-contract terms for the first academic year within the deadlines established by the State Commission.

If a student enrolled on a differentiated fee-based contract is expelled from the ranks of students during the first stage of their studies, they will be required to pay the remaining amount of the differentiated fee-based contract upon resuming their studies.

75. Students admitted to higher education institutions on an additional and differentiated fee-based contract basis will continue their studies in the general established procedure starting from the next academic year, after successfully completing the first academic year.

Chapter 10. Admission Procedure

76. Applicants are not allowed to participate in the competition for admission to higher education institutions and will not be accepted for study in the following cases:

- did not participate in the test (regardless of whether they participated in professional (creative) exams held simultaneously with the test);

- did not participate in professional (creative) exams (or any type of them) (regardless of whether they participated in the test);

- submitted documents to higher military educational institutions and were recommended for admission;

- Scored less than 33.3% of the maximum possible score in professional (creative) exams for admission to the "Pre-Conscription Military Training" educational program.

This procedure does not apply to a specific exam (or type) for applicants who are exempted from entrance exams (or one type) on the basis of a privilege established in accordance with legislative documents.

77. The selection is conducted based on the compatibility of the set of subjects of the entrance exams (tests, professional (creative) exam) and the sequence of subjects in it, the priority of selection determined by the applicant, and the sequence of undergraduate education areas.

In this case, if, according to the results of entrance exams (professional (creative) exam, tests), the total scores of two or more applicants for the last admission place in one bachelor's degree program (taking into account the form of education and language of instruction) are equal, all applicants with equal scores are recommended for study on a state grant or fee-based contract basis in accordance with this bachelor's degree program.

78. Competitions based on the results of the tests are held in the following order:

a) For applicants who have chosen the "Education Grant" priority:

If the applicant's scores are sufficient to be admitted to study on a grant basis in the first undergraduate program of his choice, his test results will be announced in this undergraduate program and he will not be allowed to participate in the competition in the second - fifth undergraduate programs of his choice;

If the applicant's scores are not sufficient for admission to the first bachelor's degree program of his choice on the basis of an educational grant, but are sufficient for admission to the second bachelor's degree program of his choice on the basis of an educational grant, his test results will be announced in this bachelor's degree program and he will not be allowed to participate in the competition for the third - fifth bachelor's degree programs of his choice;

If the applicant's scores are not sufficient for admission to the first and second undergraduate programs of study chosen on the basis of an educational grant, but are sufficient for admission to the third undergraduate program of study chosen on the basis of an educational grant, his test results will be announced in this undergraduate program and he will not be allowed to participate in the competition for the fourth and fifth undergraduate programs of study chosen;

If the applicant's scores are not sufficient for admission to the first - third bachelor's degree programs of his choice on the basis of an educational grant, but are sufficient for admission to the fourth bachelor's degree program of his choice on

the basis of an educational grant, his test results will be announced in this bachelor's degree program and he will not be allowed to participate in the competition for the fifth bachelor's degree program of his choice;

If the applicant's scores are not sufficient for admission to the first to fourth undergraduate programs of study on the basis of an educational grant, but are sufficient for admission to the fifth undergraduate program of study on the basis of an educational grant, the results of his/her test will be announced in this undergraduate program;

If an applicant is recommended for study on the basis of an educational grant for one of the first to fifth undergraduate study programs, he/she is not allowed to participate in the competition on a fee-based contract basis for the chosen undergraduate study program;

If the applicant's accumulated points are not sufficient to be admitted to study on the basis of an educational grant in the first to fifth undergraduate education areas of his choice, he will participate in the competition on a fee-based contract basis within the framework of the chosen undergraduate education areas in the sequence specified [in the second to sixth paragraphs of subparagraph "a" of this paragraph](#);

b) For applicants who have chosen the "Educational field" priority:

If the applicant's scores are sufficient to be admitted to the first bachelor's degree program of his choice on the basis of an educational grant or a fee-based contract, the results of his test will be announced in this bachelor's degree program and he will not be allowed to participate in the competition for the second - fifth bachelor's degree programs of his choice;

If the applicant's scores are not sufficient for admission to the first bachelor's degree program of his choice, but are sufficient for admission to the second bachelor's degree program of his choice on the basis of an educational grant or a fee-based contract, his test results will be announced in this bachelor's degree program

and he will not be allowed to participate in the competition for the third - fifth bachelor's degree programs of his choice;

If the applicant's scores are not sufficient for admission to the first and second undergraduate programs of study he/she has chosen, but are sufficient for admission to the third undergraduate program of study he/she has chosen on the basis of an educational grant or a fee-based contract, his/her test results will be announced in this undergraduate program of study and he/she will not be allowed to participate in the competition for the fourth and fifth undergraduate programs of study he/she has chosen;

If the applicant's scores are not sufficient for admission to the first - third bachelor's degree programs of his choice, but are sufficient for admission to the fourth bachelor's degree program of his choice on the basis of an educational grant or a payment contract, his test results will be announced in this bachelor's degree program and he will not be allowed to participate in the competition for the fifth bachelor's degree program of his choice;

If the applicant's scores are not sufficient for admission to the first to fourth undergraduate programs of study he/she has chosen, but are sufficient for admission to the fifth undergraduate program of study he/she has chosen on the basis of an educational grant or a fee-based contract, his/her test results will be announced in this undergraduate program.

If the applicant's scores are not sufficient to be admitted to the first to fifth undergraduate majors of their choice, their test results will be announced in the first undergraduate major.

Applicants who have chosen fewer than five undergraduate majors will participate in the competition in the undergraduate majors they have chosen in accordance with the procedure set forth in this paragraph.

79. From the date of adoption of the decision of the State Commission on the admission of applicants to higher education institutions, higher education institutions:

an order (order) allowing applicants to attend classes for a period of one week;

After the documents specified [in paragraph 9](#) of these Regulations are submitted to the admissions committee of the higher education organization, the higher education organization issues orders for admission to the ranks of students.

An order (order) of the rector (director) of the higher education institution will be issued to allow applicants recommended for studentship on a fee-based contract basis to attend classes starting September 2.

Admission of applicants to study on a fee-based contract basis is formalized by order of the rector (director) of the higher education institution after the payment of the amount of the fee specified in the study contract by legal entities or individuals no later than September 15 of each year or within the deadlines established by the State Commission.

Failure by an applicant to submit the documents specified [in paragraph 9 of these Regulations to the admissions committee shall be grounds for the higher education institution not to admit this applicant to study.](#)

80. If the documents submitted by the applicant are found to be forged, the applicant will be excluded from the entrance exams (if admitted to the university, from the ranks of students of the higher education institution) and law enforcement agencies will be notified in accordance with the established procedure.

Chapter 11. Admission of foreign citizens to study

81. Foreign citizens are admitted to study on a fee-based contract basis based on the results of an interview conducted by a higher education institution.

Foreign citizens can be admitted to higher education institutions, as a rule, twice per academic year.

82. Foreign citizens with general secondary or secondary specialized, vocational, professional education or equivalent education are admitted to higher education institutions.

83. The cost of training foreign citizens on a fee-based contract basis is determined independently by a specific higher education organization in agreement with subordinate ministries and departments in an amount not less than the base fee-based contract amount established for citizens of the Republic of Uzbekistan for the relevant undergraduate education field and specialty, except for cases provided for otherwise in international treaties of the Republic of Uzbekistan.

84. Education of foreign citizens admitted to higher education institutions is carried out in the languages provided for in the educational programs.

85. A foreign citizen who successfully completes his/her studies is issued an appropriate document (diploma) of higher education of the established standard.

Chapter 12. Final rule

86. Persons guilty of violating the requirements of these Regulations shall be held liable in accordance with the procedure established by legislative acts.
