

ANNEX 2 [to the Resolution](#) of the Cabinet of Ministers No. 578 dated September 13, 2025

ON THE PROCEDURE FOR ADMISSION TO MASTER'S DEGREES IN HIGHER EDUCATION INSTITUTIONS

REGULATION

Chapter 1. General provisions

1. This Regulation establishes the procedure for admission to master's degree programs at state higher education institutions (hereinafter referred to as higher education institutions) operating in the Republic of Uzbekistan in accordance with [the Law](#) of the Republic of Uzbekistan "On Education" .

This Regulation does not apply to higher education institutions whose admission processes are regulated in accordance with separate legislative acts.

2. Admission to master's degrees at higher education institutions is based on the following parameters:

Admission parameters based on state grants, approved by relevant documents of the President of the Republic of Uzbekistan;

Admission parameters for higher education institutions and master's degree specialties in languages, approved by the State Commission for Admission to Educational Organizations of the Republic of Uzbekistan (hereinafter referred to as the State Commission).

3. The language of instruction in the master's degree programs of higher education institutions is approved by the State Commission in accordance with the proposals of ministries and departments before the documents are accepted within the established admission parameters.

4. The admission process for master's degree programs is coordinated by the admissions committee of the higher education institution (hereinafter referred to as the admissions committee). A deputy secretary of the admissions committee responsible for admission to master's degree programs is appointed.

5. The applicant will be admitted to study in a master's degree program that is appropriate or similar to the field of study for which he/she completed his/her bachelor's degree.

A master's degree program based on a specific undergraduate degree program that the applicant has completed is considered a suitable major.

The Ministry of Higher Education, Science and Innovation of the Republic of Uzbekistan (hereinafter referred to as the Ministry) annually approves a list of

related higher education areas for admission to master's degrees in higher education institutions by July 1 and publishes them on the official website of the Ministry.

Chapter 2. Registration of applicants

6. One month before the start of the master's degree competition, the admissions committee publishes information about the deadlines for admission to the master's degree, the names of specialties, and the number of places allocated on the official website of the higher education organization.

7. Applicants register for admission to master's degrees at higher educational institutions through the official website of the Ministry or one of the Unified Interactive State Services Portals of the Republic of Uzbekistan (hereinafter referred to as the electronic platform).

Applicants are registered from July 1 to July 30 each year (including July 30).

Applicants upload the following documents to the electronic platform for registration:

a) a copy of the document on higher education (or a copy of the diploma - for those who graduated from higher education institutions with a state grant) and a copy of the appendix to it.

In this case, since starting from the 2020/2021 academic year, diploma information (with average score) issued by a higher education institution will be automatically generated in the Ministry's "Higher Education Process Management - HEMIS" information system, it is not required to upload this category of diploma and its appendix to the electronic platform;

b) a copy of a certificate of proficiency in a foreign language of the established level, with the exception of applicants who have a preference for admission to a master's degree without a competitive examination in accordance with legislative documents.

In this case, national or international certificates determining the level of foreign language proficiency are required at the following levels:

in foreign languages - at least at the S1 level;

in the fields of education: humanities, biological and related sciences, mathematics and statistics, business and management, law, service, social and behavioral sciences, journalism and information, information and communication technologies - at least at the V2 level;

in other fields of education and in cultural and sports specialties - at least at level V1;

c) a copy of a document confirming the right to privileges for applicants who have privileges in accordance with the decrees and resolutions of the President of the Republic of Uzbekistan and the resolutions of the Cabinet of Ministers.

8. The documents of applicants registered for admission to the master's degree program will be reviewed by the admissions committees by August 10 of each year, and they will be notified of the acceptance of their applications through their personal accounts on the electronic platform.

Applicants whose applications are not accepted will be notified through their personal accounts on the electronic platform, indicating the reason for the rejection.

9. Applicants who registered through the electronic platform can track the status of their application through their personal account.

10. If the applicant enters the required information and documents into the electronic platform during registration within the specified period and in full accordance with the established requirements, the admissions committee will not refuse to accept the documents.

Chapter 3. Conducting the competition

11. Applicants for master's degrees on the basis of a state grant and a payment contract are admitted by the State Commission in accordance with the sequence of the average scores obtained in the bachelor's degree.

Admission to a master's degree is carried out on a competitive basis among persons who have a bachelor's degree in the relevant bachelor's degree field of study and a list of related higher education fields (for admission to a master's degree) established by the Ministry, as well as a certificate of proficiency in a foreign language of the specified level.

The selection is held separately for each higher education institution, depending on the specialization, language of instruction, and form of study. In the event that the target admission parameters for certain specializations are approved by regions, as well as by personnel customers, the selection is held separately for each region, as well as by personnel customers (higher education institution).

12. Admission to the master's degree is carried out on the basis of equality for all, uniform admission rules and a single selection, and applicants with the

highest average score in their bachelor's degree are first admitted under state grants. The remaining applicants are admitted within the framework of the established parameters of admission on a fee-based contract basis, based on the sequence of average scores in their bachelor's degree.

Within the allocated admission parameters, the applicant(s) with an indicator equal to the selection score of the last applicant will also be recommended for admission on the basis of an additional place.

13. When enrolling in a master's degree program, persons with disabilities of groups I and II in terms of vision, hearing, and speech are not required to have a national or international certificate of proficiency in a foreign language.

14. The following are considered visually impaired applicants for admission to a master's degree program:

a) persons who have a certificate of the established form on group 1 visual disability;

b) the following persons who have a certificate of disability of the 2nd group in the prescribed form:

have a certificate of completion of secondary education (based on grade 11) provided by special boarding schools for the blind;

have a diploma for the blind issued by specialized primary vocational education organizations (vocational colleges) for people with disabilities;

They studied at a special boarding school for the blind for 9 years and received a diploma from a secondary specialized or vocational or primary vocational education organization.

15. Blind applicants are admitted to study on the basis of an additional state grant if their average score for their bachelor's degree is 71 points or higher on a 100-point rating system or "4" or higher on a "5"-point rating system.

16. Applicants with a certificate of 1200 points or higher, which is 75% of the maximum score possible on the international Scholastic Aptitude Test (SAT) exam conducted by the College Board, will be admitted to study in a bachelor's degree program in a subject for which the certificate was issued and in a related master's degree program, based on an additional state grant.

In this case, the applicant must send the "Scholastic Aptitude Test - SAT" certificates to the Ministry electronically (via DI code).

17. Applicants with privileges are admitted to higher education institutions in accordance with the Unified Register of Privileges for Admission to Master's Degree Programs in Higher Education Institutions, which is approved by the State Commission annually by May 1.

18. The Ministry submits the results of admission to master's programs of higher education institutions to the State Commission for approval by August 20 of each year.

19. An appeals committee consisting of members of the admissions committee, deans of faculties, and experienced professors is formed in a higher education institution to consider appeals from applicants.

If an applicant is dissatisfied with the results of the competition, he or she may appeal to the appeals committee within 24 hours from the date of announcement of the results. The period for considering an appeal shall not exceed two days.

The applicant has the right to participate in the consideration of the appeal. The admissions committee will notify the applicant of the date and place of the appeal consideration at least one day in advance.

Chapter 4. Admission Procedure

20. The decision of the State Commission on admission to master's degrees in higher education institutions is made by August 25 of each year.

21. Applicants recommended for admission shall submit the following documents to the admissions committee:

the original copy of the document on higher education (or the original copy of the diploma extract - for those who graduated from higher education institutions with a state grant) and its appendix;

a copy of a certificate of the specified level of foreign language proficiency;

Applicants who have privileges in accordance with the procedure established by legislative acts, the original document confirming the right to privileges.

If the documents submitted by the applicant are found to be forged, the applicant will not be admitted to the university (if admitted, he/she will be expelled from the university) and law enforcement agencies will be notified in accordance with the established procedure.

22. Based on the decision of the State Commission, orders of rectors (directors) of higher education institutions on the admission of applicants to the ranks of students on state grants will be issued within a week.

23. After the decision of the State Commission on recommending applicants to master's degree specialties on a fee-based contract basis, a contract is drawn up in accordance with the established procedure between the higher education organization and legal entities or individuals.

For applicants recommended by the State Commission for study on a fee-based contract basis, payment is made annually within the terms specified in the contract.

The terms of the contract and the obligations of the parties, as well as the procedure for their implementation, are determined in accordance with legislative acts.

Admission to study on a fee-based contract basis is formalized by order of the rector (director) of the higher education institution after the legal entities or individuals have paid the established tuition fee in accordance with the established procedure.

24. According to the results of the competition, applicants who are not recommended for admission to a master's degree within the established admission parameters may be admitted to a master's degree based on additional admission parameters based on the decision of higher education institutions, taking into account the existing capacities, material and technical base, and teaching staff of higher education institutions, and in agreement with the Ministry.

The amount of payment-contract for applicants admitted to study in master's programs based on additional admission parameters is determined independently by the higher education institution, based on real costs per student.

25. Failure by an applicant to submit the documents specified [in paragraph 21 of these Regulations to the admissions committee shall be grounds for the higher education institution not to accept him/her for study.](#)

Chapter 5. Admission of foreign citizens to study

26. Foreign citizens are admitted to study on a fee-based contract basis based on the results of an interview conducted by a higher education institution.

Foreign citizens can be admitted to higher education institutions, as a rule, twice per academic year.

27. Foreign citizens with a bachelor's degree or equivalent education are admitted to master's programs at higher education institutions.

28. The cost of training foreign citizens on a fee-based contract basis is determined independently by a specific higher education organization in agreement with subordinate ministries and departments in an amount not less than the base fee-based contract amount established for citizens of the Republic of Uzbekistan for the relevant master's degree specialty, except for cases provided for otherwise in international treaties of the Republic of Uzbekistan.

29. Education of foreign citizens admitted to higher education institutions is carried out in the languages provided for in the educational programs.

30. Foreign citizens who successfully complete their studies are issued with an appropriate document (diploma) of higher education of the established standard.

Chapter 6. Final rule

31. Persons guilty of violating the requirements of these Regulations shall be held liable in accordance with the procedure established by legislative acts.

ANNEX 3 [to the Resolution](#) of the Cabinet of Ministers No. 578 dated September 13, 2025

On the procedure for transferring, reinstating and expelling students from higher education institutions

REGULATION

Chapter 1. General provisions

1. This Regulation establishes the procedure for transferring, reinstating and expelling undergraduate and graduate students from state higher education institutions in the Republic of Uzbekistan (hereinafter referred to as higher education institutions) in accordance with [the Law](#) of the Republic of Uzbekistan "On Education" and legislative acts in the field of higher education.

2. This Regulation does not apply to higher education institutions where the transfer, reinstatement and expulsion of students are regulated by separate legislative acts.

3. Coordination of processes related to the transfer, reinstatement and expulsion of students (including the review of relevant documents) is carried out by the Ministry of Higher Education, Science and Innovation of the Republic of Uzbekistan (hereinafter referred to as the Ministry).

4. The following basic concepts are used in this Regulation:

compatible educational fields (specialties) - undergraduate educational fields (master's specialties) that have the same name when transferring and resuming the studies of students of higher education institutions;

related educational areas - areas of training, curricula and programs of undergraduate education that are close in content. Their list is approved by the Ministry;

Transfer of studies - the transfer of a student's studies from one higher education institution to another or from one educational field within one higher education institution to another in accordance with the established procedure and based on the decision of the State Commission or the Ministry of Higher Education, Science and Innovation (relevant ministry (department)) or a higher education institution, in accordance with the student's application;

Transfer of studies - transfer of a former student to another higher education institution or another undergraduate program within one higher education institution in accordance with the established procedure, based on the decision of the State Commission or the relevant ministry (department) or higher education institution, in accordance with the application of the former student;

Reinstatement is the resumption of a former student's studies in accordance with his/her application to continue his/her studies in a specific undergraduate or graduate program.

5. Transfer of students from one higher education institution to another to a compatible and related field of study (compatible specialty), or to an incompatible field of study (incompatible specialty) in the absence of a compatible and related field of study (compatible specialty) in higher education institutions in a particular region, is permitted in the following cases:

When a student applies to transfer their studies to a higher education institution in the area where their spouse permanently resides due to marriage;

In the event that the place of work of government employees is changed by the relevant ministries and departments, when their spouse or minor child applies for a transfer of studies based on the recommendation of the head of a specific ministry or department.

6. Students' studies may be transferred or resumed based on decisions of higher education institutions, ministries and departments with higher education institutions in their systems, and the State Commission.

7. Transfer and resumption of students' studies in relevant and related areas of higher education and relevant specialties within one higher education institution is carried out on the basis of an order of the rector (director) of this higher education institution.

8. Transfer and re-transfer of students from one higher education institution to another in compatible and related areas of education and compatible specialties is carried out on the basis of a decision of the ministry or department subordinate to the higher education institution accepting the student.

9. In the following cases, the transfer and resumption of students' studies is carried out by decision of the State Commission:

higher education institutions within the same ministry or department or within the system of different ministries and departments, to unrelated areas of higher education, to incompatible specialties, or from one educational program to another;

In cases where there are no compatible and related educational programs within the same higher education institution, to non-compatible educational programs and non-compatible specialties;

to transfer students who have been expelled from higher military or militarized educational institutions of the republic due to health reasons to higher educational institutions in educational areas that are similar in content to the educational area they studied (with similar personnel training areas, curricula and programs);

Transfer of studies from foreign and non-state higher education institutions to state higher education institutions in appropriate and related areas of education on a fee-based contract basis, as an exception, upon presentation of valid reasons.

10. The following circumstances shall serve as grounds for rejecting a citizen's application for transfer and resumption of studies:

those who studied at non-accredited higher education institutions of foreign countries or their branches;

those who study at centers, departments, educational and consulting points, etc. of higher education institutions;

transfer of studies to the first semester of the first year (except for cases where the student is granted academic leave due to illness, or in cases of resumption of studies when the field of study is not available);

if the higher education institution does not have a suitable (similar) educational field (suitable specialty) or form of education;

when those recommended for study on a fee-based contract do not make payment within the specified period;

if the student's personal summary (academic transcript) is not submitted within the established deadlines;

If there are no vacancies within the number of students (admission parameters) for transfer and restoration to a higher education institution based on a state grant;

when the material and technical resources of a higher education institution are limited;

those who have been admitted on purpose to another field of study or form of education or to another higher education institution;

from one form of education to a special form of correspondence education and from a special form of correspondence education to another form of education;

the student has been accepted on the basis of a mutual agreement between higher education institutions of Uzbekistan and foreign countries and has studied or is studying under joint educational programs (with the exception of this joint program itself);

in other cases specified in legislative documents.

It is not permitted to recommend a student to study in the semester following the semester in which he/she has not studied.

11. When formalizing the transfer (resumption) and reinstatement of students' studies, the rector (director) of the higher education institution, in accordance with the established procedure, determines the procedure and terms for transferring existing academic debts or differences in curricula and programs (during the current semester), the course (semester) of study, and other conditions for admission to study established by law.

In order for a student to continue their studies from a specific course (semester), the following is required:

a) in the rating system for monitoring and assessing student knowledge - the differences in the curricula for general and specialized subjects should not exceed 4;

b) in the system of transferring and accumulating conditional units (credits) for determining the volume of student workload - the GPA in subjects from the standard curriculum of the educational field (specialty) to which the student is transferring must be 2.4 or higher.

If these requirements are not met, the student may be allowed to continue his/her studies from a lower course (semester) based on his/her application, taking into account the difference in subjects (GPA) in the standard curriculum.

12. When transferring and resuming student studies on a payment contract basis, the procedure and conditions for concluding a payment contract, including payment amounts and terms, are carried out in accordance with the procedure established by legislative acts.

13. The difference between subjects (academic debt, unabsorbed credit) identified in the system of transferring and accumulating conditional units (credits) for determining the volume of student workload is absorbed (re-absorbed) after payment is made, based on the amount of the basic payment contract in accordance with the amount of these credits.

A student who returns from academic leave within the specified period will be given a free one-time opportunity to make up for a subject (credit) gap if it is determined that there is a gap.

Chapter 2. Transfer of studies of students of higher education institutions

14. Registration of applications for the transfer (resumption) of student studies to higher education institutions is carried out twice per academic year through the official website of the Ministry or one of the Unified Interactive State Services Portals (hereinafter referred to as the electronic platform):

before the start of the fall semester - from July 15 to August 5 (including August 5);

Before the start of spring semester classes - from January 10 to January 20 (including January 20) - via the electronic platform.

Applications for student transfers from one higher education institution to another will not be accepted or considered before the start of spring semester classes.

15. Citizens who wish to transfer (re-transfer) their studies enter their personal identification data into the electronic platform and upload the following documents:

a copy of the documents substantiating the circumstances (reasons) provided for [in paragraph 5](#) of these Regulations ;

a copy of a report card or academic transcript in the prescribed format.

16. Before the start of the spring semester academic sessions - from January 10 to January 20 (including on January 20), applications for student transfer may also be accepted by regional working groups established by order of the Minister of Higher Education, Science and Innovation.

17. A registered application for the transfer (resumption) of students' studies to higher education institutions is sent via the electronic platform to the higher education institution or to the ministries and departments that have higher education institutions in their system, or to the State Commission, as appropriate.

18. Consideration and decision-making on applications for transfer (resumption) of studies of students of higher education institutions:

before the start of the fall semester classes - from August 6 to August 30 (including August 30);

It will be held before the start of spring semester classes - from January 21 to February 10 (including February 10).

In this:

a) Applications for the transfer and resumption of student studies in relevant and related areas of education and relevant specialties within the same higher education institution are considered by the higher education institution, a decision is made, and the applicant is notified of this via the electronic platform;

b) applications for the transfer and resumption of student studies from one higher education institution to another in relevant and related areas of study and relevant specialties:

The relevant ministry (department) will review the application, make a decision, and notify the applicant via the electronic platform;

In case of a positive decision, the relevant ministries and departments will send a letter to the higher education institution with a list of students whose studies have been approved for transfer (resumption of transfer);

c) Applications in the cases specified [in paragraph 9](#) of these Regulations will be considered by the State Commission and an appropriate decision will be made.

If the applications are reviewed and approved, the State Commission will send a letter to the higher education institution with a list of students whose studies have been approved for transfer (resumption of transfer).

19. Transfer to state grant places in relevant and related areas of higher education and relevant specialties in all forms of study is allowed upon application by students studying on the basis of state grants within the number of state grants established in the admission parameters for the relevant academic year in higher education institutions.

Students who are blind, disabled, and orphans and who are studying on a state grant basis within the admission parameters allocated to them are allowed to transfer their studies to appropriate and related areas of higher education and appropriate specialties on a state grant basis in accordance with [paragraph 5](#) of these Regulations, or to change the form of education without changing the higher education organization and area of education.

Students who are admitted to higher education institutions on a full-time basis on a state grant as winners of sports competitions with preferential treatment:

[in accordance with paragraph 5](#) of these Regulations, to transfer their studies to a suitable and similar field of study in the form of part-time education (if a part-time education form exists) on the basis of a state grant;

It is allowed to continue their studies in the form of part-time education (if a part-time form of education exists) on the basis of a state grant, without changing the higher education institution and field of study.

In other cases, transfer of studies is carried out on a fee-for-service basis.

20. Transfer of studies of students studying in joint educational programs established by mutual agreement between higher education institutions of Uzbekistan and foreign countries is carried out in accordance with [the Resolution of the Cabinet of Ministers No. 421 dated July 6, 2021 "On approval of the Regulation on the procedure for organizing educational activities based on joint educational programs of the Republic of Uzbekistan and foreign partner higher education institutions"](#).

In this:

Applications for transfer of studies are received and considered by the higher education institution from which the student's studies are being transferred, and a decision is made in consultation with the higher education institution from which the student studied;

Applications will be accepted, reviewed and decided on from July 15 to August 30 (including August 30);

The higher education institution will provide the applicant with a written response regarding the results of the application review.

Chapter 3. Transfer of students from foreign and non-state higher education institutions

21. Applications for transfer (resumption) of student studies from foreign and non-state higher education institutions are registered annually from July 15 to August 5 (including August 5) through the official website of the Agency for Knowledge and Qualifications Assessment under the Ministry of Higher Education, Science and Innovation (hereinafter referred to as the Agency).

22. Registered applications will be sent to relevant higher education institutions via the Agency's official website.

The higher education institution will verify the compliance of registered applications with these Regulations and whether the field of study for which the transfer is requested is consistent or similar in content to the field of study in which the student studied.

Based on the results of the review, the application will be approved or rejected. In case of rejection, the higher education institution will inform the student of the reason for the rejection through his/her personal account on the official website of the Agency.

23. Citizens who wish to transfer (re-transfer) their studies from foreign and non-state higher education institutions to appropriate and similar undergraduate educational programs of state higher education institutions shall pass a special test (test, professional (creative) exam) (hereinafter referred to as the special test) in the language of study in the subjects of the specific educational program of the higher education institution to which they are transferring their studies.

Special tests are conducted in accordance with the established procedure for admitting students to undergraduate studies at state higher education institutions. In particular, professional (creative) exams are conducted by specific higher education institutions and are included in the special system of the Agency.

The system of passing scores for special tests is approved by the Ministry by July 15 each year based on proposals from ministries and departments that are higher education institutions and is published on its official website.

24. Special tests are conducted in accordance with the set of subjects, number of test tasks and evaluation criteria for the previous academic year (relative to the academic year being transferred) in accordance with the established procedure for the undergraduate education of higher education institutions of the republic.

25. Special tests shall be conducted within the deadlines established by the Agency in agreement with the Ministry.

26. Tests are conducted by the Agency, and the results, summarized with the results of professional (creative) exams, are published on the Agency's official website within a week and sent to higher education institutions.

27. According to the results of special tests conducted:

Students who score a passing score or higher are allowed to transfer to a specific field of study on the basis of a fixed basic fee-based contract;

Students who score below the passing score may be admitted to study on an additional and differentiated fee-based contract basis, based on their applications.

Students whose scores are not less than the minimum score set by the State Commission for admission to undergraduate programs and who do not reach the passing score of 4 points may be admitted to study on an additional fee-based contract basis.

In this case, the contract payment amount is determined in the following amounts relative to the actually established base contract payment amount:

For applicants who have not reached 1.05 points - 1.5 times the base payment-contract amount;

For applicants who have not scored from 1.05 to 2.05 points - 2.0 times the base payment-contract amount;

For applicants who have not scored from 2.05 to 3.05 points - 2.5 times the base payment-contract amount;

For applicants who have not reached a score of 3.05 to 4.05 points - 3.0 times the base fee-contract amount.

After fulfilling at least 50% of the payment-contract terms for the first academic year for these amounts within the deadlines established by the State Commission, the applicant will be admitted to study by order of the rector (director) of the higher education institution.

28. Students whose scores are not less than the minimum score set by the State Commission for admission to undergraduate programs, but who do not reach the passing score by more than 4 points, and who express a desire to study, are granted the right to transfer their studies, provided that they pay a differentiated fee-contract amount determined by the State Commission in relation to the fee-contract amount actually established in the first academic year.

A student who expresses a desire to transfer his studies on the basis of a differentiated payment contract is admitted to study by order of the rector (director) of the higher education institution after fulfilling at least 50% of the payment contract terms for the first academic year within the deadlines established by the State Commission.

29. Students are not allowed to transfer their studies from higher education institutions in foreign countries to corresponding and unrelated undergraduate programs of state higher education institutions.

The transfer of students from foreign and non-state higher education institutions operating in the Republic of Uzbekistan to corresponding and non-corresponding educational programs of state higher education institutions is carried out in accordance with the established procedure, on the basis of a fee equal to the minimum amount of the differentiated fee-contract established for the relevant undergraduate educational program.

30. The Agency's record of the results of the transfer tests serves as the basis for the rector (director) of the higher education institution to issue an order to recommend applicants to study in accordance with the established procedure based on the results of the tests.

31. The education of those whose spouse or parents are in a foreign state and whose place of service is transferred to the Republic of Uzbekistan by the Ministry of Foreign Affairs, who are sent to study abroad by government decrees and instructions, as well as by ministries and departments with higher education institutions in their system, shall be transferred to higher education institutions without exams based on the decision of the State Commission.

32. Transfer of studies of students studying at the master's level at foreign and non-state higher education institutions to higher education institutions is not allowed.

33. The transfer (resumption) of studies of foreign citizens from foreign and non-state higher education institutions to state higher education institutions is carried out on the basis of an interview and by order of the rector (director) of a

specific higher education institution. Their payment-contract amounts are determined in accordance with legislative acts.

Chapter 4. Processing of documents for the transfer (resumption) of student studies

34. Based on the instruction letter sent in accordance with the decision of the Ministry and the Department or the State Commission, an order is issued by the rector (director) of the higher education institution to allow the student to attend classes, and a request is sent by this higher education institution to the higher education institution where the student previously studied to send his personal summary.

The deadline for submitting a personal summary to the higher education institution (not less than 20 working days) is set by the rector (director) of the higher education institution.

35. After receiving the questionnaire, based on the order of the rector (director) of the higher education institution where the student previously studied to expel him from the ranks of students, the student's personal summary (with a list) is sent to the higher education institution that accepted him for study within three days or is given to the student whose studies were transferred based on the application.

In cases where it is not possible to send a personal resume (training in closed areas and specialties), an academic reference letter signed by the rector (director) of the higher education institution and certified by a seal is sent to the higher education institution that admitted the student.

The higher education institution where a student is studying is verified to be studying on the basis of targeted admission, and if it is determined that he or she is actually studying on the basis of targeted admission, a letter will be sent to the higher education institution that sent the request and to the student within three days stating that the student's studies cannot be transferred.

36. A copy of the student's academic transcript, rating book, student card, as well as the list of documents being sent, will be left at the higher education institution where the student previously studied.

37. When considering applications from students whose studies are allowed to be transferred and making a decision, the Commission on Transfer and Restoration of Students' Studies (hereinafter referred to as the Commission) established at the higher education institution carefully checks whether the educational fields studied by the student and the fields from which the transfer is

requested are compatible or similar, and the documents substantiating the circumstances specified [in paragraph 5 of these Regulations for the transfer](#).

If the documents justifying these circumstances are not up to the required standard, the order of the rector (director) of the higher education institution on admission to the studentship will not be issued.

38. If it is determined that the documents submitted by a citizen whose studies have been transferred are forged or do not meet the established requirements, this citizen will not be accepted for enrollment (if accepted as a student, he will be expelled from the ranks of students).

39. The Commission:

a) verifies the original documents substantiating the circumstances specified [in paragraph 5 of these Regulations](#);

b) in the event that a case of actual transfer of studies has been identified, but there is no suitable and similar educational program in higher education institutions in a particular region, if the educational program chosen by the student upon registration differs significantly in content from the educational program he/she studied, on the recommendation of the student to an educational program that is close in content to the educational program he/she studied;

If a student is registered for transfer to a non-related field of study due to the above-mentioned circumstances, but there are similar and related fields of study in higher education institutions in the region where this higher education institution is located, it submits proposals for recommending this similar or related field of study, along with the student's application, to the subordinate ministry or department (within one week from the date of the student's application).

The proposals of higher education institutions specified [in subparagraph "b"](#) of this paragraph shall be considered by the ministry or department in whose system the higher education institution is located within ten days and shall be allowed to be transferred to a corresponding or related educational field of the higher education institution in its system. In this case, if the corresponding or related educational field exists in a higher education institution in the system of another ministry or department, the proposals shall be sent to this ministry or department.

40. The order of the rector (director) of the higher education institution on the admission of citizens whose studies have been transferred to the ranks of students is accepted within 10 days after the contractual payments are made within the specified period and amount.

41. When transferring a student to another higher education institution, the consent of the higher education institution where he/she previously studied is not required.

Chapter 5. Resumption of studies of students of higher education institutions

42. Applications for the resumption of studies of students of higher education institutions are accepted twice per academic year:

before the start of the fall semester - from July 15 to August 5 (including August 5);

It is carried out by a specific higher education institution before the start of spring semester classes - from January 10 to January 20 (including January 20).

Applications can also be accepted electronically by higher education institutions.

43. A student who wishes to resume his/her studies shall attach to his/her application a grade book or a copy of an academic reference or transcript in the prescribed form.

44. Consideration and decision-making on applications for the resumption of studies of students of higher education institutions:

for the fall semester - from August 6 to August 31;

for the spring semester - from January 21 to February 10.

45. Reinstatement to the ranks of students in all forms of education is carried out on a fee-based contract basis in compliance with the requirements of these Regulations.

Orphans, persons with disabilities of groups I and II and children with disabilities who received education under state grants, as well as persons who completed military service (within one year from the date of discharge to the reserve), persons who returned from academic leave within the specified period, and students who were sent abroad to study by government order in accordance with Government resolutions and instructions and ministries and departments with higher education institutions in their system and who returned within the specified period, may, as an exception, be reinstated (continue) to study (for a specific course) on state grants.

46. Within the framework of an intergovernmental or interdepartmental agreement or an agreement between higher education institutions, students who

have studied at a foreign higher education institution for one or more semesters in a field of study corresponding to the field of study they studied at a higher education institution of the Republic of Uzbekistan and returned within the specified period are allowed to continue their studies (in a specific field of study and form of education, including students who studied on the basis of a state grant - on the basis of a state grant), taking into account the periods (semesters) of study at a foreign higher education institution.

In this case, it is allowed to re-master the differences in subjects in the curricula of certain educational areas during the corresponding academic semester.

The resumption of studies of students who return after the specified deadline will be considered in the general procedure.

47. An order of the rector (director) of the higher education institution on the reinstatement of the student and allowing him to attend classes in the established manner and within the established deadlines is issued.

The order of the rector (director) of the higher education institution on the admission of students whose studies are resumed on a fee-based contract basis is received within 10 days after the contract payments are made by them within the specified period.

48. A student is not allowed to be reinstated (re-enrolled) in the academic year (course, semester) in which he/she was expelled.

Chapter 6. Expulsion of students from higher education institutions

49. The following are grounds for expelling a student from a higher education institution:

- a) at his own discretion;
- b) transfer of studies to another educational institution;
- c) violation of the internal regulations and rules of conduct of the higher education organization;
- g) missing more than 74 hours of classes during one semester without good reason (except for cases where a medical certificate of the prescribed form is provided due to health reasons);
- d) failure to pay the tuition fee on time (for those studying under a fee-based contract);
- e) the student has been deprived of his/her liberty by a court;

j) when a court decision establishes that a student has violated the established procedure for entrance exams (in this case, those expelled from the ranks of students will not be reinstated);

h) when a student who has been dropped from the course does not apply for continuation of his/her studies within the established deadlines;

i) if it is determined that the documents submitted (submitted) by the student to the admissions committee of a higher education institution as an applicant are forged or do not meet the established requirements;

k) deceased.

A student may be granted academic leave in accordance with the established procedure for military service, health recovery, pregnancy and childbirth, as well as during parental leave, and to care for a sick family member (father, mother or their substitutes, spouse, child).

50. Students are suspended from course to course by order of the rector (director) of a higher education institution in the following cases:

Failure to master subjects within the established deadlines (academic debt), with the exception of educational areas where the educational process is organized on the basis of a credit-module system;

Failure to achieve a passing GPA score at the end of the semester and academic year in educational areas where the educational process is organized on the basis of a credit-module system;

did not participate in the internship, as well as when the internship was evaluated unsatisfactory.

51. A student who is dropped from a course will start his studies on a fee-based contract from the beginning of the relevant academic semester that he did not complete.

In higher education institutions where the system of transferring and accumulating conditional units (credits) to determine the volume of student workload has been introduced, students who are dropped from the course due to academic debt will repeat only the subjects (modules) they failed to master, starting from the corresponding academic semester.

In order for a student who has dropped out of a course to continue their studies, they must apply to the higher education institution within the established deadlines to resume their studies.

A student who fails a course may be expelled from the ranks of students in the cases [specified in paragraph 49](#) of these Regulations .

52. In the process of transferring (restoring) and reinstating students' studies, if it is determined that the documents in the personal file are not fully submitted or that changes have been made to the submitted documents, or that the documents have not been approved in the established manner, the rector (director) of the higher education institution has the right to inspect these documents and not issue an order.

53. The student's personal file must contain the following documents:

[a document](#) confirming the completion of general secondary (eleven-year education), secondary specialized (nine-year basic secondary and two-year secondary specialized education), primary vocational education (nine-year basic secondary and two-year primary vocational education), as well as secondary specialized, vocational education (nine-year general secondary and three-year secondary specialized, vocational education) until the entry into force of the Law of the Republic of Uzbekistan "On Education" (September 24, 2020) and the original of its appendix;

an extract from the order of admission to the higher education institution where you studied;

An extract from the order of transfer to the last course studied;

an original academic reference or transcript in the prescribed format;

extract from the order of expulsion from the ranks of students;

A response letter to a questionnaire sent to the higher education institution where the student studied.

54. An extract from the relevant order, an application, and an academic certificate or transcript are attached to the personal file of students who have transferred or resumed their studies at a higher education institution.

55. If discrepancies are identified in the subjects of the curriculum, the student will be admitted to study as an academic debtor.

Students with academic debts in subjects will retake the unlearned subjects at their own expense after making a payment based on the base payment-contract amount in accordance with the number of credits not mastered in the relevant subjects during a particular semester.

56. Higher education institutions are responsible for the correct execution and legality of the submitted documents on the transfer, reinstatement, and expulsion of students.

If necessary, the rector may request confirmation of the accuracy of the information via an official letter from the higher education institutions that sent the documents.

Chapter 7. Final rule

57. Persons guilty of violating the requirements of these Regulations shall be held liable in accordance with the procedure established by legislative acts.
