**MINISTRY OF HIGHER EDUCATION, SCIENCE AND INNOVATION
OF THE REPUBLIC OF UZBEKISTAN
TERMEZ STATE UNIVERSITY**

**REGULATION
ON THE RECOGNITION OF CREDITS**

Termez – 2026

CHAPTER 1. GENERAL PROVISIONS

1.1. Purpose of the Regulation

1. This Regulation (hereinafter — the “Regulation”) establishes the procedure for the recognition (re-crediting) of previously completed courses, credits and learning outcomes of students who have transferred to Termez State University (hereinafter — the “University”) from another, including a foreign, higher education institution, as well as of students studying, or having studied, under international academic mobility (student exchange) programs, and defines the powers of the responsible bodies and persons.

2. The purpose of the Regulation is to support students’ academic mobility, to prevent the duplication of previously achieved learning outcomes (i.e., a student studying the same material twice), and, in accordance with the internationally recognized principles of recognition adopted within the European Higher Education Area and the legislation of the Republic of Uzbekistan, to ensure a transparent, fair and consistent system of credit recognition.

1.2. Scope of Application

3. The Regulation applies to the following categories of students:

students who have transferred to the University from another domestic or foreign higher education institution;

students who have studied for one or more semesters at a foreign university under an academic mobility or student exchange program and have returned to the University;

students partially studying abroad within joint educational programs;

candidates who have studied partially or fully at a foreign higher education institution and are applying to the University for the first time — with respect to this category, the Regulation is applied in coordination with the Admissions Committee.

4. The Regulation is applied uniformly across all faculties and departments; the comparison of courses and the assessment of learning outcomes are carried out at the level of the relevant department.

1.3. Regulatory, Legal and Methodological Basis

5. The Regulation has been developed on the basis of the following documents:

the Regulation “On the Procedure for Introducing the Credit-Module System into the Educational Process of Higher Education Institutions,” approved by Resolution No. 824 of the Cabinet of Ministers of the Republic of Uzbekistan dated 31 December 2020 (hereinafter — the “Credit-Module Regulation”);

the Regulation “On the System for Monitoring and Assessing Student Knowledge in Higher Education Institutions,” approved by Order No. 19-2018 of the Ministry of Higher and Secondary Special Education of the Republic of Uzbekistan dated 9 August 2018 (registered with the Ministry of Justice on 26 September 2018 under No. 3069);

the Regulation approved by Resolution No. 578 of the Cabinet of Ministers of the Republic of Uzbekistan dated 13 September 2025, “On Approving Regulatory Legal Documents Governing the Admission Process to Higher Education Institutions”;

Law No. O‘RQ-637 of the Republic of Uzbekistan “On Education,” dated 23 September 2020;

the Lisbon Recognition Convention of the Council of Europe and UNESCO (1997), “On the Recognition of Qualifications Concerning Higher Education in the European Region,” as an internationally recognized set of recognition principles (the burden of proof resting with the institution, assessment based on learning outcomes, transparency, timeliness, non-discrimination and the right of appeal);

the European Credit Transfer and Accumulation System (ECTS) Users' Guide — principles concerning credit volume, the learning agreement and the transcript of records;

the Standards and Guidelines for Quality Assurance in the European Higher Education Area (ESG, 2015), in particular Standard 1.4 — pre-announced rules consistently applied at all stages of the student life cycle (admission, progression, recognition and completion);

the practical criteria applied in the credit transfer (articulation) policies of the QS/THE TOP-300 foreign universities — minimum passing grade, the ceiling on transferable credits, time limits, expert comparison of course syllabi, and appeal procedures;

the relevant orders and procedures of the Ministry of Higher Education, Science and Innovation;

the Charter of Termez State University and its internal documents governing the organization of the educational process.

6. The legislation of the Republic of Uzbekistan, primarily the Credit-Module Regulation, takes precedence within this Regulation; international standards (the Lisbon Convention, ECTS) are applied to matters not regulated by domestic legislation, and serve as the methodological basis for assessing credits and learning outcomes.

1.4. Basic Concepts

credit (academic credit) — a conventional unit expressing the volume of academic workload (contact hours and independent-study hours) that a student has spent in mastering a given course;

ECTS credit — a unit of the European credit system in which 1 ECTS credit is equivalent to 30 hours of academic workload, a full academic year comprising 60 credits;

credit equivalency — the conversion coefficient used to convert the volume expressed under a foreign or other HEI's credit system into the volume expressed under the University's national credit-module system;

recognition (re-crediting) of credits — the process of formally confirming that the learning outcomes of a course or module completed by a student at another educational institution correspond to the relevant course in the University's curriculum;

academic gap (course discrepancy) — the difference, in general professional and specialized courses requiring additional completion, between the curriculum previously completed by a transferring student and the University's curriculum;

transcript of grades — an official document reflecting all courses completed by a student, together with their credit volume and grades;

learning agreement / educational agreement — a tripartite agreement concluded between the sending and receiving institutions and the student within academic mobility, predetermining the courses to be completed and their credits;

course catalogue — an officially published set of information on all courses offered by a higher education institution, their credit volume, content and learning outcomes, and one of the key documents for academic mobility and credit recognition;

nostrification — the state procedure for recognizing, within the territory of the Republic of Uzbekistan, the legal validity of a foreign educational document (diploma, academic transcript);

platform — the University's information platform, registrator.tersu.uz;

Credit Recognition Committee — a standing committee established by order of the Rector for the purpose of credit recognition.

CHAPTER 2. THE CREDIT RECOGNITION COMMITTEE

7. The Committee is established by order of the Rector at the beginning of each academic year. The Chair of the Committee is the Vice-Rector for Academic Affairs; the Committee Secretary is a staff member of the Registrar's Office.

8. The Committee comprises specialists from the Registrar's Office and the Academic Affairs Department, the dean of the relevant faculty, heads of departments, and a representative of the International Cooperation Office. Where necessary, a faculty member in the relevant discipline is engaged as an expert.

9. The Committee:

conducts a comparative analysis of the documents submitted by the student against the current curriculum and course syllabi;

adopts a conclusion on the full recognition, partial recognition, or non-recognition of credits;

determines the list of academic gaps and their credit volume;

issues a conclusion on the form (free of charge or on a paid basis) for completing the gaps;

submits a proposal regarding the determination of the student's year of study and individual schedule.

10. A meeting of the Committee is deemed valid if at least two-thirds of its members are in attendance. Decisions are adopted by majority vote and formalized in minutes.

11. The Committee's conclusion serves as the basis for the preparation of the Rector's order.

CHAPTER 3. BASIC PRINCIPLES OF RECOGNITION

12. The credit recognition process, in accordance with the principles of the Lisbon Convention and ECTS, is based on the following core rules:

1. Burden of proof — the University must demonstrate that a "substantial difference" exists between the course previously completed by the student and the course in the curriculum; otherwise, there is deemed to be no basis for refusing recognition.

2. Assessment based on learning outcomes — the recognition decision is based not on the exact correspondence of course content or contact hours,

but on whether the learning outcomes achieved (knowledge, skills, competencies) meet the requirements of the University's curriculum.

3. Transparency — the recognition criteria, the list of required documents, and the stages of the process are announced in advance and made publicly available on the University's website and in the student handbook.

4. Timeliness — the decision on recognition is made within established time limits, and unjustified delay is not permitted.

5. Non-discrimination — the recognition decision is made solely on the basis of academic criteria, regardless of the student's citizenship, sex, religion, ethnicity, or any other status.

6. Right of appeal — a student who disagrees with a refusal of recognition, or with a decision on partial recognition, has the right to file an appeal from the date the written, reasoned decision is received.

CHAPTER 4. RECEIPT AND REVIEW OF DOCUMENTS

13. Within 10 working days from the date of admission (transfer, reinstatement) or return from academic mobility, the student submits an application for credit recognition through the platform or to the Registrar's Office.

14. The following documents are attached to the application:

an academic transcript or transcript of records (indicating the courses completed, credit volume and grades);

an extract from the curriculum, together with the syllabus of the relevant courses;

for students returning from academic mobility — the learning agreement and transcript of grades;

where documents from a foreign higher education institution are involved — translations made in the prescribed manner, together with the original documents.

15. The Registrar's Office verifies the completeness of the documents within 3 working days. If deficiencies are identified, the student is given 3 working days to remedy them.

16. Within 5 working days from the date the documents are fully accepted, the Committee reviews them and adopts a conclusion. The conclusion is communicated to the student through the platform.

CHAPTER 5. CATEGORIES OF APPLICATION AND SPECIAL RULES

5.1. Students Transferring from Foreign Higher Education Institutions

17. In accordance with the Regulation approved by Resolution No. 578 of the Cabinet of Ministers of the Republic of Uzbekistan dated 13 September 2025, "On Approving Regulatory Legal Documents Governing the Admission Process to Higher Education Institutions," the following two conditions must be met simultaneously for a student to continue studies at a given year (semester), including admission by transfer:

(a) the academic gap in general professional and specialized (major) courses under the University's standard curriculum does not exceed four;

(b) for fields of study organized under the credit-module system, the student's GPA (grade point average) is 2.4 or higher. If either of these conditions is not met, admission by transfer is refused.

18. Where the academic gap is four courses or fewer, the student is admitted with the status of "academic debtor" and is required to complete the gap courses during the current academic year (typically the first semester); otherwise, measures are applied in the manner established by the Regulation under Annex 3 to Resolution No. 578 of the Cabinet of Ministers dated 13 September 2025.

19. A student transferring from a foreign higher education institution must, in addition, either have already completed the nostrification procedure for recognition of the educational document within the Republic of

Uzbekistan, or submit it within the time limit established following admission to the University.

20. Transfer is carried out within the annual time limits established by the Regulation under Annex 3 to Resolution No. 578 of the Cabinet of Ministers dated 13 September 2025 — from 15 July to 5 August (the main period) and from 20 December to 20 January of the following year (in exceptional cases).

5.2. Academic Mobility and Student Exchange

21. In accordance with Article 19 of the Credit-Module Regulation, the following documents are used to support academic mobility and the University's recognition of a student's credits: the course catalogue; the learning agreement in the prescribed form; and certificates/transcripts. These documents reflect the student's learning outcomes and serve as the basis for the recognition and transfer of credits.

22. In accordance with Article 20 of the Credit-Module Regulation, the number of credits accumulated by a student under the University's educational program is deemed equal to the number of credits earned in accordance with the learning outcomes established at the other higher education institution.

23. Where a student's educational program at a foreign university has been formalized on the basis of a learning agreement signed in advance with the University, and the student has successfully completed the courses specified in the agreement, the relevant credits are recognized under the simplified (accelerated) procedure set out in Chapter 6, without additional course comparison. In accordance with Article 22 of the Credit-Module Regulation, the learning components a student is required to complete during the mobility period may not be changed without the consent of, and agreement with, the sending institution.

24. In accordance with Article 23 of the Credit-Module Regulation, the number of credits recognized by the receiving institution must be

proportionate to the duration of the student's period of study abroad (3–6 months or 1–3 years).

25. Where the learning agreement has not been signed in advance, or the list of courses changes during the mobility period without agreement, recognition is carried out under the general procedure (Chapter 6).

26. In accordance with Article 26 of the Credit-Module Regulation, the indicators determining a student's level of achievement during the academic mobility period are accepted on the basis of the table for converting the University's grading system to other grading systems (Chapter 6). Whether or not this affects the student's overall grade point average (GPA) is determined in advance by the University Council and communicated to the student.

5.3. Joint Educational Programs

27. Courses completed at a foreign partner university within a joint educational program are automatically recognized on the basis of the credit equivalency table agreed in advance under the bilateral program agreement.

CHAPTER 6. PROCEDURE FOR ASSESSING AND RECOGNIZING CREDITS

28. Credits for a course (module) are fully recognized when all of the following criteria are simultaneously met:

- correspondence of learning outcomes;
- the aim and content of the course;
- the competencies formed;
- credit (ECTS) volume;
- academic workload and assessment results.

29. A course may be recognized even where its title differs, provided that its content corresponds. Where the credit volume is less than that under the current curriculum, the course is partially recognized, and the credit difference is formalized as an academic gap.

OFFICIAL TRANSLATION

30. Given that, under the credit-module system, 1 credit is on average equivalent to 25–30 academic hours of workload, this ratio serves as the basis when converting workload expressed under another system into credits. Where credits earned within academic mobility are expressed under the ECTS system, 1 ECTS credit is equated to 1 credit.

31. Grades awarded under another assessment system are converted on the basis of the official comparison table (Table 2) of the Regulation approved by Order No. 19-2018 of the Ministry of Higher and Secondary Special Education of the Republic of Uzbekistan dated 9 August 2018:

Proposed Uzbekistan system	Russian system (MSU)*	European Credit Transfer System (ECTS)	American system (A–F)	British system (%)	Japanese system (%)	Korean system (%)	Uzbekistan system (%)
«5»	«5»	«A»	«A+»	70–100	80–100	90–100	90–100
			«A»				
			«A-»	65–69			
«4»	«4»	«B»	«B+»	60–64	70–79	80–89	70–89.9
		«C»	«B»	50–59			
			«B-»				
«3»	«3»	«D»	«C+»	45–49	60–69	70–79	60–69.9
		«E»	«C»	40–44			
			«C-»				
			«D+»			60–69	
			«D»				
			«D-»				
«2»	«2»	«FX»	«F»	0–39	0–59	0–59	0–59.9
		«F»					

The table above is based on the percentage figures calculated in accordance with Table 1 of the Regulation (table for converting the 5-point scale to the 100-point scale).

OFFICIAL TRANSLATION

Table for converting assessment from the 5-point scale to the 100-point scale:

5-point scale	100-point scale	5-point scale	100-point scale	5-point scale	100-point scale
5.00–4.96	100	4.30–4.26	86	3.60–3.56	72
4.95–4.91	99	4.25–4.21	85	3.55–3.51	71
4.90–4.86	98	4.20–4.16	84	3.50–3.46	70
4.85–4.81	97	4.15–4.11	83	3.45–3.41	69
4.80–4.76	96	4.10–4.06	82	3.40–3.36	68
4.75–4.71	95	4.05–4.01	81	3.35–3.31	67
4.70–4.66	94	4.00–3.96	80	3.30–3.26	66
4.65–4.61	93	3.95–3.91	79	3.25–3.21	65
4.60–4.56	92	3.90–3.86	78	3.20–3.16	64
4.55–4.51	91	3.85–3.81	77	3.15–3.11	63
4.50–4.46	90	3.80–3.76	76	3.10–3.06	62
4.45–4.41	89	3.75–3.71	75	3.05–3.01	61
4.40–4.36	88	3.70–3.66	74	3.00	60
4.35–4.31	87	3.65–3.61	73	Below 3.00	Below 60

In accordance with Article 26 of the Credit-Module Regulation, foreign grades submitted as a result of academic mobility or transfer are converted to the University's 5-point system on the basis of this table; where necessary, this may be clarified by a specific agreement concluded with the foreign partner institution or by a separate decision of the University Council.

32. Credits are not recognized in the following cases:

- where the authenticity of the submitted documents is not confirmed;
- where the content of the course does not meet the established criterion;
- where the final result for the course is not positive, or the course was not completed.

CHAPTER 7. FORMALIZATION OF THE DECISION AND APPEAL

33. Recognized courses and credits are entered into the student's individual curriculum, and the relevant order and credit equivalency sheet are added to the student's personal file.

34. A student dissatisfied with the decision has the right to appeal to the relevant Appeals Commission within 24 hours from the date of being notified, in accordance with the procedure established in the University's 'Regulations on handling complaints of students, faculty, and staff'. The Appeals Commission is formed by the Vice-Rector for Academic Affairs and reviews the appeal.

35. Appeals shall be considered solely on the grounds of procedural violations or newly discovered documentary evidence.

CHAPTER 8. IDENTIFICATION AND FORMALIZATION OF ACADEMIC GAPS

36. On the basis of the Committee's conclusion, a list of the student's academic gaps is drawn up. It indicates the course title, credit volume, semester, form of completion (free of charge or on a paid basis), and deadline.

37. A student found to have gaps in curriculum courses is admitted to study with the status of academic debtor. The student's scholarship is paid starting from the date the academic debt (gaps) is cleared.

38. An individual schedule is drawn up for the student to complete the gaps. The schedule is approved by the Vice-Rector for Academic Affairs on the basis of the dean's submission.

39. The following limits apply to the credit volume of academic gaps:
the re-completion of more than 15 credits' worth of courses within a single semester is not permitted (except for final-year students);
the total number of credits for courses selected during the summer semester must not exceed 30 credits.

40. Where, in calculating the gaps, the GPA is found to be below 2.4, the Committee submits a proposal for the student's admission to a lower year of study.

41. The student's year of study is determined in the manner established in Chapter IX of the Academic Regulations. For students who have fully

completed the first semester of the first year, the GPA is calculated at the end of the year regardless of course gaps. Students recommended for admission after completing a technical college (tekhnikum), or for a second higher education on the basis of an interview, are assigned to the 3rd semester of the 2nd year regardless of GPA.

42. The list of recognized credits and academic gaps is formalized by means of a QR-coded certificate confirmed on the registrator.tersu.uz platform.

CHAPTER 9. PROCEDURE FOR COMPLETING ACADEMIC GAPS

43. Academic gaps are completed in the following two forms:

a) during the semester — in parallel with the main educational process, on the basis of an individual schedule;

b) during the summer semester (vacation period) — in separately formed groups.

In both forms, instruction may be organized in a traditional (offline) or distance (online) manner.

44. The payment terms for completing a gap are determined according to the student's category.

45. Where completion is on a paid basis, the student, no later than 15 days before classes begin, formalizes the contract through the kontrakt.edu.uz platform, pays the established amount for the course, and submits an application through the registrator.tersu.uz platform. A student whose application is approved is enrolled in the re-study process.

46. The payment amount is calculated on the basis of the base contract payment amount, in proportion to the number of uncompleted credits.

47. The period of study is determined on the basis of the course's credit volume:

during the semester — 1 week of study for every 1 credit;

during the summer semester — 1 week of study for every 4 credits.

A student is permitted to sit the final assessment only after the established weeks of study have been fully completed.

48. Where at least 8 students submit applications for a given course during the summer semester, a separate study group is formed. Where the number of students is insufficient, the process is carried out in distance (online) form.

49. Where a course is being taught during the semester as part of the general curriculum and class schedule, the student is permitted to attend those classes, and no additional payment is made to the faculty member teaching the course.

50. A student's knowledge is assessed on the basis of the interim and final assessment forms established in the course syllabus. The final assessment is conducted in the form of a test in designated computer rooms, and the results are immediately reflected on the platform and in the HEMIS information system.

51. A student who receives a passing grade upon reassessment is deemed to have cleared the academic gap. A student who fails to clear the gap is required to repeat the course in the established manner.

52. A student who has made the payment but has not attended classes or has not mastered the course must make a further payment to complete the course and repeat the entire course of study from the beginning.

CHAPTER 10. SPECIAL CASES

53. For students with the status of forcibly displaced persons who are unable to fully submit official documents, an alternative assessment procedure may be applied — in accordance with the relevant recommendations of the Lisbon Convention — on the basis of other available evidence (interview, test, partially available documents); such cases are regulated by a separate order of the University Rector.

54. Credits obtained through massive open online courses (MOOCs) and short-term certificate programs may be recognized under the general

OFFICIAL TRANSLATION

procedure, provided that they have been officially awarded by an accredited higher education institution and are expressed in ECTS or an equivalent credit system, but such credits may not exceed 10 percent of the credits in the student's curriculum.

CHAPTER 11. QUALITY ASSURANCE

55. The Department of Academic Affairs and the Office of the Registrar shall maintain a register of all recognition applications and decisions, and submit a statistical and analytical report to the University Council at least once a year.

CHAPTER 12. FINAL PROVISIONS

56. This Regulation enters into force on the date of its adoption by the University Council.

57. Amendments and additions to the Regulation are introduced where the applicable legislation, the regulatory documents relating to the credit-module system, or international practice change.

58. Where the provisions of this Regulation conflict with the legislation of the Republic of Uzbekistan, the provisions of the legislation shall apply.
